Are you a U.S. citizen?	Yes
Are you registered to vote?	Yes
Current Occupation:	Attorney
Current Employer:	Kimberly Dudik & Associates
If you'd like, you can attach a resume or other document for the City Council to consider.	*Field not completed.*
Briefly describe your educational background:	I have specialized education experience, in health, law, and policy, that would be valuable for the Health Board. My legal experience includes having a Juris Doctorate from the University of Montana School of Law. I have advanced health and policy training through a Master of Public Health obtained from Johns Hopkins Bloomberg School of Public Health. My health knowledge began with obtaining a Bachelor of Science in Nursing from Montana State University. I worked as a registered nurse at both St. Patrick Hospital and Community Medical Center. My primary school education was at Frenchtown Elementary School.
List of community service experience:	I am committed to working to improve the Missoula and Montana community and have served my community in many ways. I have served as a Director on the Providence St. Patrick Hospital Board of Directors for approximately 6 years, serving as the chairperson for the Mission and Community Needs Committee. I served the people of Missoula County as an elected State Representative for 8 years from 2013-2020, focusing in improving our laws to promote public safety and further justice. I have advanced experience in finance and how it interacts with policy because my experience as a Representative included service on the Appropriations Committee that examines and sets the state budget. I also served as a member of and as the Chairperson for the Finance Committee.

	I founded the nonprofit Montana Anti-Trafficking Project to educate and raise awareness of human trafficking in Montana before this topic was widely known about. I co-founded the nonprofit Public Policy Institute of the Rockies to create transformational change on under-addressed issues by conducting research, initiating reforms, and providing legal advocacy.
What is your interest in serving on this board, commission, or committee?	I am committed to working to improve the lives of those living in Missoula and all of Montana. I specifically want to serve on the Health Board because I am passionate about working to make our systems and policies work so that they function as well as possible to improve our lives in Missoula. I have worked in all areas that impact the Health Board - as a health care provider, attorney, policy maker, and in management/governance. During these times where our health and vaccinations are becoming political talking points, I want to work to move our community forward past these divisive issues.
Do you have any special knowledge, interest, or experience that would qualify you for a position on this board, commission, or committee?	I have health, legal, and policy experience that would be valuable for the Health Board as described in the other questions. I have specialized policy and negotiation experience through my 8 years of service to Missoula County as a state legislator in the Montana House of Representatives. This includes passing Medicaid Expansion as well as passing other policy initiates that directly impact the health and wellbeing of Montanans. I have been able to work with people of varying backgrounds and been able to create creative solutions that move the needle and improve public health and wellbeing. I welcome the opportunity to do the same on the city Health Board.
