---

Adam,
I've reviewed the bid tabulation, bid form, bid bond, certifications, and the city's recommendation letter. We don't typically issue a separate authorization for equipment procurement. You may consider this email as concurrence with the procurement process, and the city's recommendation to award the equipment contract to Northwest Pipe Fittings in the amount of $186,992.00. The bid amount is eligible for SRF loan assistance at this time.

Upon execution, please forward copies of the executed contracts, bonds, and insurance.

Feel free to reach out if you have any questions or concerns.
