Kaitlin,

Thank you for the opportunity to comment. Where structures are designed and constructed within the jurisdiction the provisions of the *International Fire Code®* (IFC®) pertaining to the exterior shall apply including, but not limited to, those necessary for fire apparatus access and fire protection water supply. Whereas the IFC® provisions appear to be addressed in the application packet, compliance and approval shall be determined upon examination of submitted construction documents and supporting data.

Adam Sebastian
Assistant Fire Marshal
Missoula Fire Department
Office: (406) 552-6210
