# Missoula City Council Parks and Conservation Committee Minutes

# October 9, 2019 1:00 PM City Council Chambers 140 W. Pine Street, Missoula , MT

Members present: Stacie Anderson, Mirtha Becerra, Michelle Cares, John DiBari, Heather

Harp, Jordan Hess, Gwen Jones, Julie Merritt, Jesse Ramos, Bryan von

Lossberg, Heidi West

Members absent: Julie Armstrong

Others present: Corena Maurer, Ron Regan

#### 1. ADMINISTRATIVE BUSINESS

#### 1.1 Roll Call

# 1.2 Approval of the Minutes from September 25, 2019

Ms. Merritt asked for a correction on page 2 of the minutes. It stated: "Ms. Merritt states that the right thing to do is to remove the dams at the Rattlesnake Lakes."

This needs to be corrected to: "Ms. Merritt states that she would like to push back on the idea that the right thing to do is to remove the Rattlesnake Lakes."

The minutes were approved as posted with the above correction.

## 2. PUBLIC COMMENT ON ITEMS NOT ON THE AGENDA

None.

#### 3. COMMITTEE BUSINESS

# 3.1 Professional Services Agreement with L.F. Sloane Consulting Group, Inc. for Missoula City Cemetery Strategic Plan Project

Mr. Regan gave an overview of the project and discussed what the project would include.

Ms. Jones states this project will also deal with infrastructure.

Ms. Cares asked when the last master plan was done.

Mr. Regan stated the last plan was done in 1976 but was never brought before city council for approval.

Ms. Cares states she is very pleased with the scope of work and the fact that the Scott Street Master Urban Renewal District (URD) Plan was referenced. She states it makes sense to take time to think strategically about the cemetery, likes that we will be holding a focus group with other cemeteries and is overall very supportive of the plan.

Mr. Ramos echos Ms. Cares comments, is excited to learn about the fee sturcture and thanks Mr. Regan for including the monument companies and is looking forward to the results.

Mr. von Lossberg echos Ms. Cares and Mr. Ramos' comments. Mr. von Lossberg did not realize that there were consulting firms specializing in cemeteries.

Ms. Jones believes the timing is great for this project and it is good to take a short and long term look at the cemetery.

Moved by: Michelle Cares

Approve and authorize the Mayor to sign a professional services agreement with L.F. Sloane Consulting Group, Inc. for the Missoula City Cemetery Strategic Plan Project for an amount not to exceed \$25,500.

AYES: (11): Stacie Anderson, Mirtha Becerra, Michelle Cares, John DiBari, Heather Harp, Jordan Hess, Gwen Jones, Julie Merritt, Jesse Ramos, Bryan von Lossberg, and Heidi West

Vote results: Approved (11 to 0)

#### 4. ADJOURNMENT

The meeting was adjourned at 1:10 pm.

Submitted by: Corena Maurer

City of Missoula Parks & Recreation Administrative Assistant.

#### **Action Required:**

Set a public hearing to consider a Resolution approving the use of 2018 open space bond funds for initial capital improvement project.

#### **Timeline and Recommended Motions:**

Referral to committee: October 7, 2019
Committee discussion: October 9, 2019
Council sets public hearing: October 21, 2019

Recommended motion: Set a public hearing for November 4, 2019, to consider a Resolution

approving use of 2018 Open Space general obligation bonds for the initial capital improvement projects to certain open space lands as described in

exhibits attached to the resolution

Public Hearing: November 4, 2019

Recommended motion: Adopt a resolution approving use of 2018 Open Space general obligation

bonds for the initial capital improvement projects to certain open space

lands as described in exhibits attached to the resolution.

Deadline: Click or tap here to enter text.

Background and Alternatives Explored:

1) Clark Fork River Sustainable Access and Restoration Project

The 2018 Missoula County Open Space Bond measure included up to \$1.5 million for development of sustainable river access within the Open Space planning boundaries. Population growth within these planning boundaries has greatly impacted our local rivers. This is especially evident throughout downtown Missoula where bank erosion and destabilization from river access is harming local riparian areas and threatening public infrastructure.

The Clark Fork River Sustainable Access and Restoration Project involves developing and/or improving multiple hardened river access sites and closing and restoring dozens of unstainable river access sites on both the North and South banks of the Clark Fork River from Ben Hughes Park to Riverside Park. Significant public scoping has occurred along the majority of this CFR

Project area. A preliminary engineering report was completed within a section of the project area, along the South bank of the Clark Fork River from the Madison St. and Orange St. Bridges. The proposed bond expenditure includes expanding upon the scope of the engineering reports and engineering in preparation for construction.

# 2) Open Space Reforestation Project

The 2018 Missoula County Open Space Bond measure included up to \$250,000 for tree planting within City parks and open space areas. Open Space bond funds are allocated to plant trees in parks and dedicated open space areas where none existed and to renew tree plantings in parks where existing trees have reached the end of their useful lifespan. Approximately 456 new trees will be planted in 15 parks and along two greenways, and 65 aging trees will be removed. Irrigation systems were essential in this undertaking.

## 3) Missoula Conservation Lands Trailhead Improvement Projects

The 2018 Missoula County Open Space Bond measure included up to \$.5 million for improving Trails and Trailheads across Missoula's Open Space and Conservation Lands System.

This proposal describes two distinct projects to upgrade existing trailheads on City Conservation Lands:

- 1) Waterworks Hill Trailhead and Interpretative trail: construct appropriate parking area, upgrade trailhead signs and infrastructure to meet standards, build accessible loop trail and connections to existing North Hills trail system, and provide site-specific interpretative education and education on responsible recreation.
- 2) Upgrade existing primary, secondary, and local access points: standardize all rules and regulations signage, provide bear-resistant trash cans where needed, upgrade all trail maps, and provide informational kiosks (as per adopted 2010 Trailhead standards) at all Primary Access points.

# Financial Implications:

The total request is for \$775,000 in 2018 Open Space Bond proceeds for three projects, which are leveraged at a ratio of nearly one to one with \$752,900 in matching funds as follows:

- 1) \$225,000 request for the Clark Fork River Sustainable Access and Restoration Project carrying a match of \$25,000;
- 2) \$250,000 request for the Open Space Reforestation Project carrying a match of \$159,700; and
- 3) \$300,000 request for the Missoula Conservation Lands Trailhead Improvement Projects carrying a match of \$568,200.

# RESOLUTION -----

A resolution of the Missoula City Council approving expenditures of up to \$775,000 of 2018 Open Space Bond proceeds for the Clark Fork River Sustainable Access and Restoration Project, Open Space Reforestation Project, and Missoula Conservation Lands Trailhead Improvement Projects, as detailed in Exhibit A attached hereto.

**Whereas**, on June 25, 2018, the Missoula City Council passed Resolution 8276 in support of the Missoula County Commissioners placing the question of a county-wide open space general obligation bond before the voters in the 2018 general election;

**Whereas**, on July 9, 2018, The Missoula County Commissioners passed Resolution 2018-111 submitting to the electors of Missoula County the question of issuing general obligation bonds in the amount of up to fifteen million dollars (\$15,000,000) for the purposes of conserving, enjoying, and enhancing the open-space lands in Missoula County;

Whereas, in November 2018, 63% of Missoula County voters approved the Open Space Bond measure, which authorizes the Missoula County Commissioners to use the bond monies for the purposes of "conserving, enjoying, and enhancing open-space land, to include providing public access to water and land; conserving agricultural lands, fish and wildlife habitat, and rivers, lakes, and streams; protecting scenic views; and making improvements to lands acquired or designated as open space that are accessible to the public", with \$7,500,000 of the \$15,000,000 total bond being allocated to the City of Missoula within the Missoula Planning Region, as guided by the *Open Space Plan*:

Whereas, the Open Space Bond ballot measure authorizes the County Commissioners of Missoula County to sell and issue general obligation bonds "to pay the costs of purchasing land, easements, or other interests in land from willing landowners and of improvements and costs related to or serving lands acquired or designated as open space, including transaction and project costs and fees, all with citizen input";

**Whereas**, the 2018 Missoula County Open Space Bond measure suggested up to \$1.5 million for Clark Fork River restoration and access within the Open Space planning boundaries, up to \$250,000 for reforestation on designated open-space lands, and up to \$.5 million for improving trails and trailheads across Missoula's Open Space and Conservation Lands System;

**Whereas**, the pending 2019 Interlocal Agreement between the City of Missoula and the County of Missoula related to use of 2018 Open Space Bond proceeds will provide guidance on City use of open space funds;

Whereas, Chapter 12.56 of the Missoula Municipal Code, which generally governs open space, dictates that the City "may expend open space bond funds to restore and make improvements to open space lands to ensure they continue to serve the public purposes for which they were protected" so long as the proposed improvements meet the requirements of Montana Code Annotated 76-6-101, et seq., otherwise known as the "Montana Open-Space Land and Voluntary Conservation Easement Act" (MMC 12.56.045);

Whereas, the City and County have recently conducted significant public outreach through open houses, focus groups, and a statistically valid public opinion survey on Parks, Recreation, Open Space, and Trails, and the results indicate strong support among residents for protecting natural resources such as water and air quality, habitat, and providing river access, natural areas to recreate in, and dirt and paved trails, as well as maintenance, enhancement, and stewardship of existing open space lands;

**Whereas**, public open spaces, trails and parks are community assets that promote social equity and are available to all citizens regardless of race, color, national origin, ancestry, religion, creed, sex, age, marital or familial status, physical or mental disability, sexual orientation, gender identity or gender expression;

**Whereas**, trees on lands designated as open-space provide significant environmental and natural resources benefits, climate resiliency, improved air and water quality and other ecosystem benefits, thereby enhancing our quality of open space and community life;

Whereas, quality trails and trailheads provide education, stewardship, and protection of important resources while also providing significant benefits of health and welfare, reduction of congestion, , and access for all;

Whereas, conservation lands are generally managed as natural areas, including riparian corridors along creeks and rivers, wetlands, grasslands, open or wooded hillsides, but both large and small scale conservation lands provide for relief from the urban environment, nature connectedness, active outdoor recreation, as well as opportunity for contemplation;

Whereas, it is recognized that the provision and preservation of these important open-space lands require repairs, replacement, renovation, and stewardship to maximize the potential and value to the community and to assure goals of the Open Space Act are met;

Whereas, conservation lands, natural areas and parklands require restoration, stewardship and improvements to ensure they remain a valuable asset to be enjoyed by all citizens;

Whereas, the City, following extensive public process, has adopted numerous plans which support the benefits of a variety of open-space land types, including the 2004 Master Parks and Recreation Plan for the Greater Missoula Area, the 2016 Long Range and Active Transportation Plans, the 2015 Urban Forest Management Plan, the 2010 Conservation Lands Management Plan, the 2014 Parks/Open Space/Trails Asset Management Plan and the 2019 Open Space Plan;

Whereas, the City has identified through the aforementioned adopted plans, the need to address not only protection of open-space lands, but also the long term stewardship of these open space lands;

Whereas, these projects will carry out the purposes of the 2018 Open Space Bond by providing access to water and land, conserving fish and wildlife habitat and rivers, and making improvements to lands acquired or designated as open space that are accessible to the public:

Whereas, the \$775,000 in requested Open Space Bond proceeds are leveraged at a ratio of nearly one to one with \$752,900 in matching funds as follows: Clark Fork River Sustainable Access and Restoration Project - \$225,000 request with \$25,000 in matching funds; Open Space Reforestation Project - \$250,000 request with \$159,700 in matching funds; and Missoula Conservation Lands Trailhead Improvement Projects - \$300,000 reguest with \$568,200 in matching funds;

Whereas, the projects received a unanimous recommendation for approval from the Missoula Parks and Recreation Board for funding up to \$775,000 at its meeting on October 8, 2019;

Whereas, the projects received a unanimous recommendation for approval from the City's Open Space Advisory Committee (OSAC) for funding up to \$775,000 at its meeting on October 10, 2019;

Now therefore, be it resolved that the Missoula City Council hereby approves 2018 Open Space Bond expenditures of up to: 1) \$225,000 for the Clark Fork River Sustainable Access and Restoration Project; 2) \$250,000 for the Open Space Reforestation Project; and 3) \$300,000 for the Missoula Conservation Lands Trailhead Improvement Projects;

Now therefore, be it further resolved that the Missoula City Council hereby approves the expenditure of up to \$775,000 of 2018 Open Space Bond proceeds for the Clark Fork River Sustainable Access and Restoration Project, Open Space Reforestation Project, and Missoula Conservation Lands Trailhead Improvement Projects.

PASSED AND ADOPTED this day of November, 2019.	
ATTEST:	APPROVED:
Martha L. Rehbein Legislative Services Director/City Clerk	John Engen Mayor

(SEAL)

# **2018 Open Space Bond Capital Improvement INITIAL Undertaking:**

Missoula Conservation Lands Trailhead Improvement Projects

The 2018 Missoula County Open Space Bond was approved by Missoula County residents during the November 2018 General Election. The bond measure included up to \$.5 million for improving Trails and Trailheads across Missoula's Open Space and Conservation Lands System. Missoulians have been passing Open Space Bonds and acquiring Open Space Lands since the mid-1980's. As the City of Missoula's Conservation Lands System has grown maintenance of these lands has lagged behind. In 2007 the Conservation Land's Management program was funded and for the past decade this program has focused on developing and implementing maintenance standards across the system. Currently, the City of Missoula manages over 4300ac. of conservation lands with over 63 trailheads and over 55 mi. of trail. The majority of these trailheads and trails were established individually across time by the public open space advocates, conservation partners and City staff, upgrading this infrastructure to meet current City Standards has been challenging.

This proposal describes two distinct projects to upgrade existing trailheads on City Conservation Lands.

- 1) Waterworks Hill Trailhead and Interpretative trail: construct appropriate parking area, upgrade trailhead signs and infrastructure to meet standards, build ADA loop trail and connections to existing N. hills trail system, provide site-specific interpretative education and education on responsible recreation. (Attachment A & B).
- 2) Upgrade existing primary, secondary and local access points: standardize all rules and regulations signage, provide bear-resistant trash cans where needed, upgrade all trail maps, and provide informational kiosks (as per adopted 2010 Trailhead standards) at all Primary Access points. (Attachment C)

This proposal is requesting expenditure of 2018 Open Space Bond Funds of up to\$135,000 for the Waterworks Trailhead and Interpretative Trail and up to \$165,000 for the Upgrade of existing Primary, Secondary and Local Access Points on City Conservation Lands. It is recommended that these funds be deducted from the "Conservation Lands Trails and Trailheads" line item described in Exhibit A of Missoula City Council Resolution 8276. If approved this would leave a remaining balance of \$200,000 in this Conservation Lands Trails and Trailheads line item.

#### PROJECT DEVELOPMENT AND PRIOR PUBLIC PROCESS:

#### 2008 Trail Inventory

In 2008, the Conservation Lands Manager conducted a trail inventory using data from public and private entities with GPS tracks, existing City trail maps, site-specific knowledge, and input from citizen advisory committees. This was the first inventory of trails on the City's Conservation Lands since the creation of the Conservation Lands Management program in 2006 and represented the first comprehensive effort to map all Conservation Land Trails. Results from the 2008 inventory were presented to the Mt. Jumbo Advisory Committee, Greenough Park Advisory Committee, Conservation Lands Technical Working Group, Conservation Lands Management Plan Working Group, and the Missoula Park Board and the general public through multiple public meetings and open houses during the development of the

Conservation Lands Management Plan with the intent to describe and adopt an official trail map for Missoula's Conservation Lands.

## 2010 Conservation Lands Management Plan

The Conservation Lands Management Plan (CLMP) was adopted in 2010 by Missoula's City Council following an extensive 2 year public process. The CLMP memorializes the designated trail system on City Conservation Lands, recognizing a total of 45.6 miles of designated system trails. The CLMP also defines the standards and specifications for trail construction throughout the system according to their designated use. In regards to trailheads, the CLMP identifies upgrading existing trailheads as a major need and outlines the desired specifications for primary, secondary, and local access trailheads as follows:

- Primary trailhead (6 total....as per 2010)
   Located in areas that have a number of trails or are primary origination points of trail systems and have adequate space to accommodate vehicles. Should have an informational kiosk with rules and regulations, educational information, trail maps, parking for 8-10 vehicles, bike rack, access gate, trashcan, mutt-mitts and, possibly, sanitary and picnic facilities.
- Secondary trailhead (27 total....as per 2010)
   Located in areas that provide access to trail systems where less developed character is desired and have adequate space for several vehicles. Include information sign and map, parking for 2-8 vehicles, bike rack, access gate, trashcan and mutt-mitts.
- Local access point (30 total..... as per 2010)
  Located where primarily local residents access a trail. No parking is provided in these areas. Include information sign, access gate, and depending on the site, a bike rack, and mutt-mitts.

Trailhead upgrades identified in this proposal directly relate to the standards described in Chapter 5 and the implementation strategies described in chapter 6 of the CLMP.

## 2015 Trail Inventory and Condition Assessment

In 2015, Conservation Lands Management staff conducted a comprehensive inventory and completed the first ever condition assessment of all trails located on Missoula Conservation Lands. Based on the standards outlined in the CLMP, both trails and trailheads were assessed for problems or insufficiencies. Key results from this inventory and assessment include:

- 53.63 miles of designated system trails (18% increase from 2008)
- 19.89 miles of non-system or user-made trails (100% increase from 2008)
- 351 documented problem points where trail width, grade, cross-slope, vegetation clearing, or surface obstacles did not meet the CLMP standards
- 8 primary, 25 secondary, and 30 local access trailheads documented
- Only 1 primary, no secondary, and half of local access trailhead met the CLMP standards

Management priorities outlined in the 2015 inventory and conditions assessment were developed during several Conservation Lands Advisory Committee meetings, were ultimately adopted by the Missoula Parks and Recreation Board, and then presented to Missoula's City Council. All of these

meetings were open to the public and public input on these priorities were received as priorities were developed.

2019 Trailhead Inventory and Condition Assessment

The majority of the trailheads in the Conservation Lands System were developed over a 30 year period and many contain inconsistent signage, inaccurate trail maps and in many cases do not comply with current trailhead standards and/or City ordinances. In an effort to provide consistency between these City trailheads Conservation Lands Management staff started an inventory of all Conservation Land trailheads and access points in the spring of 2019. Staff will visit all 63 access points to document the condition of all infrastructure, GPS the site and take a picture of all signs. It is anticipated that this inventory will be completed in fall of 2019. Data from this inventory will provide all the information needed to complete a comprehensive upgrade of all Primary, Secondary and Local access points.

#### **PROJECT BUDGET:**

A multitude of funding opportunities exist for improving public recreation al resources. Project coordinators intend to leverage Open Space Bond Funds with, park district, state/local/neighborhood grants, partnerships, donations, the Conservation and Stewardship mil levy and existing maintenance budgets to implement both of the projects described in this undertaking.

**Waterworks Hill Trailhead and ADA trail, Estimated Project Budget:** this budget is based on estimate from similar projects implemented across Missoula over the past 5 years. A preliminary grading plan and master site plan (Attachment A & B) have been developed for this project. Final design and engineering is needed to refine accurate project costs. A \$50,000 State Recreational Trails Project Grant was awarded to this project in spring 2019 to offset construction costs of the ADA trail and overlook

Activity	Average Costs	Funding Source
Engineering/Surveying /permitting of trailhead & amenities, design of onsite interpretation, construction oversight	\$135,000.00	Open Space Bond
Access road improvements	\$170,200.00	Msla. Street Dist. Plus private donation
Construction of Water Utility access and Parking lot	\$130,500.00	Msla. Water Utility Capital Improvement Fund, Conservation Mil Levy
Trailhead construction	\$83,000	Conservation Mil Levy, Msla. Water Utility Capital Improvement Fund
ADA loop trail & Overlook	86,500	Conservation Mil Levy, Grants and Donations
Estimated Total Project Cost	\$605,200	

The Waterworks trailhead project would begin in winter 2019 with anticipated completion date of spring 2021. Upgrading all other trailheads on City Conservation Lands would take up to three seasons to complete. Work on upgrading these trailheads would begin in 2020 and will focus on standardizing and posting accurate signage and updating amenities at secondary and local access points. More complex upgrades ie. trail map design and install, kiosk construction and trail reroutes will take longer to implement. Anticipated completion of all trailhead upgrades would be summer 2022.

**Upgrade existing primary, secondary and local access points, Estimated Project Budget:** this budget is based on real costs from similar projects implemented at Missoula trailheads over the past 10 years. Completion of the Conservation Lands Trail head inventory and condition assessment in Winter 2019 will provide exact quantities for additions and upgrades of infrastructure (ie: signs, kiosks, trail maps, trash cans, mutt-mitts, fences, parking).

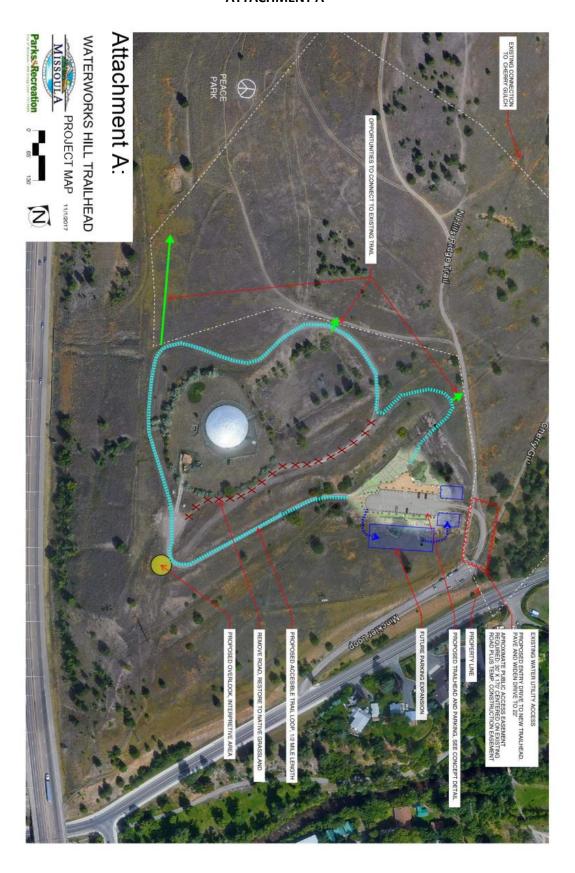

Activity	Average Costs	Funding Source
Upgrade of existing Primary and Secondary Trailheads to meet City standards and ordinances	\$165,000.00	Open Space Bond Grants & Donations
Supplies and Materials for upgrade of local access points	\$12,000	Conservation Mil Levy & Msla Park District
Labor & equipment costs for coordination and install limited trailhead infrastructure at primary & secondary Trailheads and all local access points.	\$86,000	Conservation Mil Levy & Msla Park District
Estimated Total Project Cost	\$263,000	

#### **SUPPORTING DOCUMENTS:**

This project is either directly or indirectly supported by the following community plans:

- 2004 Missoula's Master Park Plan <a href="https://www.ci.missoula.mt.us/DocumentCenter/View/776/May-2004-Final-Master-Parks-and-Recreation-Plan-?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/776/May-2004-Final-Master-Parks-and-Recreation-Plan-?bidId=</a>
- 2010 Missoula's Conservation Lands Management Plan, adopted in 2010
   <a href="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/4499/Conservation-Lands-Management-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.mt.us/Document-Plan?bidId="https://www.ci.missoula.m

# **2018 Open Space Bond Capital Improvement INTIAL Undertaking:**

Clark Fork River Sustainable Access and Restoration Project

The 2018 Missoula County Open Space Bond was approved by Missoula County residents during the November 2018 General Election. The bond measure included up to \$1.5million for development of sustainable river access and riparian restoration along the Clark Fork River within the Open Space planning boundaries. Population growth within these planning boundaries has greatly impacted our local rivers. This is especially evident through downtown Missoula where bank erosion and destabilization from river access is harming local riparian areas and threatening public infrastructure.

The Clark Fork River Sustainable Access and Restoration Project (CFR Project) involves developing and/or improving multiple hardened river access sites and closing and restoring dozens of unstainable river access sites on both the North and South banks of the Clark Fork River from Ben Hughes Park to Riverside Park (Attachment A). Significant public scoping has occurred along the majority of this CFR Project area. A preliminary engineering report (Attachment B) was completed within a section of the project area, along the South bank of the Clark Fork River from the Madison St. and Orange St. Bridges.

This proposal is requesting expenditure of 2018 Open Space Bond Funds of up to\$225,000 for Phase 1 of the Clark Fork River Sustainable Access and Restoration Project. It is recommended that these funds be deducted from the "Clark Fork Restoration/Access" line item described in Exhibit A of Missoula City Council Resolution 8276. If approved this would leave a remaining balance of \$1,275,000 in this Clark Fork Restoration/Access line item.

# PROJECT DEVELOPMENT AND PRIOR PUBLIC PROCESS:

Following the 2010 removal of the Milltown Dam recreational use of the Clark Fork River through Missoula exploded. Exponential increases in the quantity and erosion severity of user created river access points along this stretch of river was observed. A 2014 inventory of these access points along  $2/3^{rd}$  mi. of the south bank of the Clark Fork River recorded:

- 34 separate user-made access sites
- 275 feet of eroded bank
- 7 user-made access points classified as severely eroded and threatening public infrastructure (Milwaukee Commuter trail)

In 2014, a partnership was formed between the Missoula Parks and Recreation Department, the Clark Fork Coalition, and the Missoula Water Quality District to find solutions for this problem. In an effort to understand how river recreationists use the Clark Fork River in downtown Missoula partners mobilized an army of volunteers to collect detailed information on the amount and type of recreational use and issued 4-page surveys to both river and trail users. These data, provided necessary information to begin developing plans to prevent further erosion and maintain recreational use capacity. Key findings from this statistically valid survey include:

- An average of 34 river users/hour (high of 76.6/hr.) floating past the Madison Street bridge during the survey period
- 70% of river use comprised by single-person tubers
- An estimated 14,200 tubers using the river between 2pm and 7pm from June 1-August 31

- High level of support for addressing erosion problems while maintaining river access by both trail and river users
- Documented multiple types of public use necessitating a variety of river access designs

Between 2015 and 2018, partners worked to develop a project to restore damaged riverbanks while providing appropriate hardened river access points. Multiple stakeholder meetings including representatives from every governmental land management agency in Missoula, City and County engineers, recreational and environmental and educational non-profits, The University of Montana and local business leaders were held to gain support and feedback on the project. A \$50,000 Renewable Resource Grant from the State of Montana was received to develop a preliminary engineering report to build sustainable access points and restore over 400 linear feet of eroding bank (Attachment B) along the South bank of the Clark Fork River between the Madison St. and Orange St. bridges (a.k.a The South Bank River access and Restoration Project).

In 2017, momentum from this project fueled the development of the Three Rivers Collaborative, a partnership between local and regional non-profits, State & Federal & Local governmental agencies, local businesses and community members. This group aims to collaboratively address issues and pursue opportunities for the benefit of Missoula-area Rivers and the people who value them. One of their first actions was to conduct a follow-up river use survey to the 2015 River Survey. Leveraging volunteer networks from across the groups, river use counts were conducted at four different sites including repeated counts at Madison Street Bridge. Key results at Madison Street Bridge from 2018 include:

- An average of 58.5 river users/hour (high of 174.7/hr.) floating under the Madison St. bridge during the survey period
- 66% of river use comprised by single-person tubers
- 73% users starting their float upstream of Madison Street and ending their float somewhere downstream, versus starting or ending at the Madison Street bridge

On February 21st, 2019 over 120 people attended a public open house held by the Three Rivers Collaborative to voice opinions about river management priorities. Results from that open house recognized the "South Bank River Access and Restoration Project" as a critical need to protect the Clark Fork River and strongly supported inclusion of the North bank of the river in the project. Based on the results of that public open house project partners (Missoula Parks & Recreation, The Clark Fork Coalition and The Missoula Water Quality District) decided to expand the South Bank River Access and Restoration Project to include the entire stretch of the Clark Fork River, creating the Clark Fork River Sustainable Access and Restoration Project (Attachment A) described in this document. Relocating approximately ¼ mi. of the Milwaukee trail on the South bank of the Clark Fork River, to increase riparian buffers and to prevent undermining of the trail by bank destabilization, is also a component of this project.

# **PROJECT BUDGET:**

A multitude of funding opportunities exist for riparian restoration projects and river access. An allocation of up to \$1.5 million in 2018 Open Space Bond funding was identified as eligible for use to improve local river access and riparian restoration. The goal of City project managers is to leverage 2018 Open Space bond money through partnerships, grants, donations and other funding mechanisms to do over \$3 million in river access and riparian restoration. The CFR project is a large undertaking, which will involve several phases and additional public process during project development. This initial request will fund project development, engineering, permitting and public process.

**FIGURE 1, Initial 2018 Open Space Bond request for the Clark Fork River Access and Restoration Project:** these figures are based on engineering and permitting estimates for similar work within the project area. Actual costs for engineering and permitting may vary depending on results of public process and final project designs.

Fig 1: CLARK FORK RIVER ACCESS PHASE 1 2019 OPEN SPACE BOND REQUEST AND ITINERARY						
Activities	Average Costs	Funding Source				
Survey of user-made access points within project area, partnership building, fundraising, public process	\$25,000.00	Project Coordinator's In- kind labor				
Project Design and formal public process	\$45,000.00	2018 Open Space Bond				
Engineering and permitting	\$180,000.00	2018 Open Space Bond				
Estimated Initial Project Cost	\$250, 000					

As described earlier in this document, local support for the CFR Project has been steadily growing for years and strong partnerships with local government agencies, non-profits and businesses already exist. Project coordinators intend to seek grants, partnerships, donations for implementation/construction as the CFR Project progresses through design/engineering/permitting. The following table represents potential phases for implementation of this project with an estimate of approximate costs. Actual costs for construction phases will not be known until Phase 1 engineering is complete. A separate Open Space Undertaking project proposal for project implementation (phases 2 &3) will be submitted at a later date.

**FIGURES 2 & 3, Approximate scope and estimated costs for potential phases of the Clark Fork River Access and Restoration Project:** these figures are based on construction estimates for similar work within the project area. Accurate costs for construction, permitting and project oversight; as well as specific locations for access points and timeframe for implementation of Phase 2 & 3 will not be known until completion of Phase 1. Accurate cost estimates for engineering, permitting and implementing this project may vary depending on results of public process and final project designs.

Fig. 2: CLARK FORK RIVER ACCESS POTENTIAL PHASE 2 (years 2020-2022)									
Activity/Item Approximate Cost Potential Funding									
		<u>Sources</u>

# 2018 Open Space Bond Capital Improvement Initial Undertaking

Open Space Reforestation Project

The 2018 Missoula County Open Space Bond was approved by Missoula County residents during the November 2018 General Election. The bond measure included \$250,000 for tree planting within city parks and open space areas.

Open Space bond funds are allocated to plant trees in parks and open space areas where none existed and to renew tree plantings in parks where existing trees have reached the end of their useful lifespan. Approximately 456 new trees will be planted and 65 aging trees will be removed. Irrigation systems along the Bitterroot Trail and in Bellevue Park are included in this undertaking.

Trees will be planted in 15 parks and along 2 greenways (see Map in Attachment A).

This proposal is requesting expenditure of 2018 Open Space Bond Funds of up to\$250,000 for the Open Space Reforestation Project. It is recommended that these funds be deducted from the "Reforest Parks/Open Spaces" line item described in Exhibit A of Missoula City Council Resolution 8276. If approved this would leave a remaining balance of \$0.00 in this Reforest Parks/Open Spaces line item.

#### PROJECT DEVELOPMENT AND PRIOR PUBLIC PROCESS:

**UF Master Plan** 

The urban forest master planning process started in December 2013, with authorization from City Council to expend \$9,000 in funds originally allocated for contractual tree care work. Work on the plan started in January of 2014. Over the next 15 months, a cadre of six core members developed the master plan. The six members included:

- Christopher Boza, City Forester City of Missoula
- Margie Ewing, Regional Urban & Community Forestry Program Manager US Forest Service
- Christopher Gray, Arborist Technician, City of Missoula
- Jamie Kirby, Urban Forester Montana Department of Natural Resources and Conservation
- Karen Sippy, Executive Director Trees for Missoula
- Susan Ridgeway, Board Member Missoula Park and Recreation Board

During the 15 months, the members conducted several activities to obtain foundational information for the management plan. These activities included:

- Historical research
- Peer city reviews
- Statistically valid public interest survey conducted by UM Institute for Tourism and Recreation Research
- Neighborhood Council meetings
- Listening sessions with over 90 stakeholder groups
- Follow-up SWOT sessions with the stakeholder groups
- Public workshops
- I-Tree analysis
- Internal staff reviews
- Park Board reviews
- Park and Conservation review
- Public hearings

Work on the management plan culminated with Missoula City Council adoption on April 20, 2015.

# **Neighborhood Planting Plans**

Consistent with the implementation strategies of the Urban Forest Management Plan, staff began working with neighborhood councils to develop planting plans for specific neighborhoods. Between December 2015 and April 2017, planting plans were developed for the following neighborhoods:

- Riverfront
- University
- Rose Park
- Franklin to the Fort
- Southgate Triangle
- South 39<sup>th</sup> Street
- Moose Can Gully
- Fairviews/Pattee Canyon

Key implementation strategies identified in the management plan supporting this undertaking are shown below.

## **Risk Management Strategies**

- Establish, adopt and implement specific criteria for tree removal. The criteria for tree removal typically include the following criteria:
- The tree is dead. The threshold for removal is typically 50 percent or greater of the canopy dead. The location of deadwood removal cuts, and the impact to the overall tree structure, must be considered in the decision to remove a tree.
- The tree is dying.
- The tree is diseased.
- The tree is structurally unsound. Structurally unsound trees that cannot be corrected by traditional pruning techniques are removed. Advanced tree preservation techniques such as cabling and bracing are reserved for high value trees.
- The tree inhibits all economically viable uses of private property.

# **Planting Strategies**

- Develop and adopt tree planting standards to ensure tree installation is consistent, whether the installation is done through the Parks and Recreation Department, other city agencies or the private sector. The planting standards will be based upon the most current ANSI standards and ISA BMPs. Planting standards not only include the tree stock, but also include the site preparation. Industry BMPs call out specific soil volumes for Class I (Small) through Class III (Large) trees. Trees provided for installation by other city agencies or the private sector must meet the current ANSI Z60.1 standards and the ISA BMPs for tree stock.
- Select trees for specific sites based upon the site conditions and constraints. A tree that is not suitable for a
  specific site will not provide maximum, long-term benefits to the community. The approved tree list should
  provide all of the pertinent information needed to select a tree appropriate to specific site. Class II and Class III
  trees shall not be planted directly under electrical distribution lines, or where root growing medium is restricted.

### Resource Strategies

- Incorporate volunteer efforts into tree care operations. Typical activities include the following:
- Arbor Day activities
- Educational outreach
- K-12 educational programs
- Tree planting
- Young tree pruning

- Leverage city funds with grant and foundation funding opportunities. Where feasible, connect grant funded programs with volunteer programs.
- Use local technical, professional and scholastic expertise for urban forest problem solving.
- Encourage Neighborhood Council participation in urban forestry programs affecting the various neighborhoods.

## **ESTIMATED BUDGET AND Project Implimentation**

A multitude of funding opportunities exist for reforestation and hazard tree mitigation projects. An allocation of up to \$250,000 in 2018 Open Space Bond funding was identified as eligible for use to improve Missoula's Urban Forest canopy and reduce the risk that potentially hazardous trees pose especially in Missoula's public spaces. The goal of City project managers is to leverage 2018 Open Space bond money through partnerships, grants, donations and other funding mechanisms to do over a half of a million dollars in reforestation and hazard mitigation. The reforestation of Missoula's Urban Forest is a large undertaking, which will involve several phases and additional public process during the project development. This initial request will fund up to 650 new trees within public spaces and reduce the level of risk, by the removal of high risk trees.

Trees for Missoula, Urban Forestry's active partner and volunteer group will be integral for volunteer planting hours and labor, grants and potential funding sources. Volunteer and staff in-kind labor will be a key aspect of reforesting Missoula's Urban Forest and increasing the aging tree canopy with new tree sites. Volunteers will be planting bare root trees, installing deer protection and helping to educate citizens on the importance of reforestation during planting projects.

Urban Forestry staff will be responsible for installing and maintaining water bladders including weekly visits to each tree to fill water bladders. Urban forestry staff will also be responsible for volunteer tracking, training and supervision during projects and site inspections after project completion. Project design, management and tracking will also be conducted by Urban Forestry staff.

# **Funding Strategies**

- Use the existing park district as a revenue source. The park district has additional assessment capacity that can be used for urban forest maintenance activities. While not enough to fund the entire operation, it can be used as seed and/or match money for alternative funding sources.
- Use grants and partnerships that are available for tree planting.

Initial 2018 Open Space Bond request for Reforestation and High Risk Tree Removal Project: these figures are based on engineering and permitting estimates for similar work within the project area. Actual costs for nursery stock trees, contract costs, staff and volunteer hours, deer protection fencing, water bladders and water truck costs may vary depending on results of final project designs. Additional sites and parks have been identified based on irrigation systems, nursery stock and planting cost estimates, and Master Park Planning documents.

	Estimated		Funding Source
Activity	Quantities	Estimated Costs	
Total Trees Planted	457-650	\$250,000.00	Open Space Bond
			Grants, Partnerships
Total Trees Removed	65	\$69,800.00	and Park District

As described earlier in this document, local support for the reforestation of Missoula's Urban Forest and tree risk reduction projects have been steadily growing for years and strong partnerships with local government agencies, non-profits and businesses already exist. Project coordinators intend to seek grants, partnerships, donations for implementation/construction as the project progresses.

This project will be implemented over a period of three to four years. The first year will be the smallest planting plan consisting of a minimum of one hundred bare root trees. The remainder of the plantings, tree removals and irrigation installations will occur in three phases.

The first phase of plantings is projected to occur in the Fall of 2020. These bare root trees will be grown in the existing gravel bed at Missoula's wastewater treatment facility. The trees will be planted by volunteers in irrigated park land.

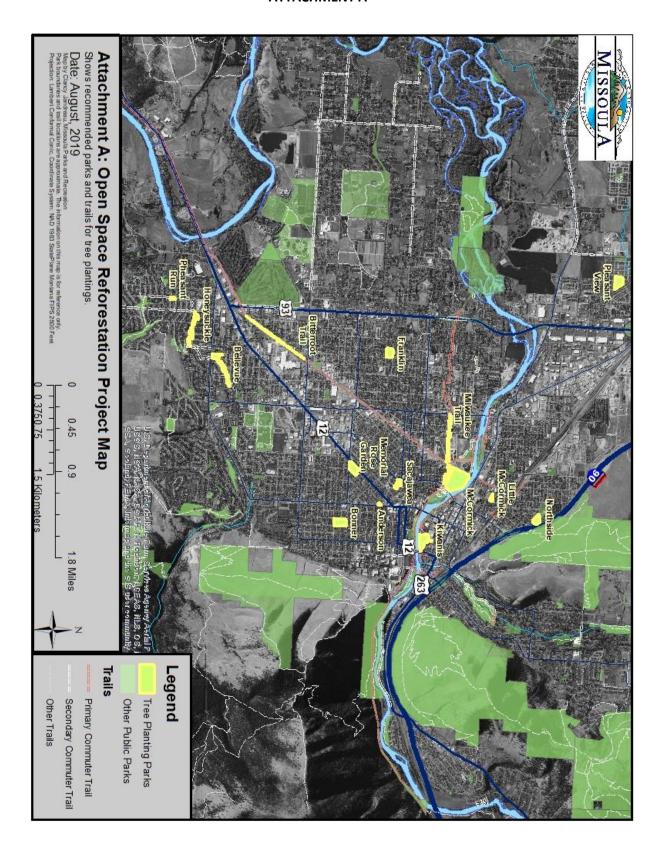

The scope of work for the remaining trees will be contingent on nursery stock, contract costs for irrigation installation and potentially tree removal. In kind funding will be a function of the urban forestry budget, staffing and volunteer hours.

#### **SUPPORTING DOCUMENTS:**

This project is either directly or indirectly supported by the following community plans:

- 2006 Missoula's Open Space Plan, adopted in 2006 <a href="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-Space-Plan?bidId="https://www.ci.missoula.mt.us/DocumentCenter/View/652/2006-Updated-Open-DocumentCenter/View/652/2006-Updated-Open-DocumentCenter/View/652/2006-Updated-Open-DocumentCe

# **RESOLUTION 8276**

A RESOLUTION OF THE MISSOULA CITY COUNCIL IN SUPPORT OF THE MISSOULA COUNTY COMMISSIONERS HOLDING A PUBLIC HEARING AND PENDING THE HEARING, PLACING THE QUESTION OF A COUNTY-WIDE OPEN SPACE GENERAL OBLIGATION BOND BEFORE THE VOTERS IN THE 2018 GENERAL ELECTION; AND FURTHER THE COUNCIL REQUESTS THE MAYOR AND HIS STAFF WORK WITH COUNSEL AND OTHERS REGARDING THE NECESSARY STEPS TO PLACE THE QUESTION OF A MILL LEVY FOR THE PURPOSE OF CONSERVATION AND RESPONSIBLE STEWARDSHIP OF OPEN SPACE AND CONSERVATION LANDS, BEFORE THE VOTERS IN THE 2018 GENERAL ELECTION.

WHEREAS, in 1969 the Montana Legislature first passed the Open-Space Land and Voluntary Conservation Easement Act, § 76-6. Parts 1 & 2 M.C.A. ("Open Space Act"), and at the time of enactment, the legislature found the rapid growth and spread of urban development are creating critical problems of service and finance for the state and local governments; population spread and development are disrupting and altering the remaining natural areas, biotic communities, and geological and geographical formations and thereby providing the potential for the destruction of scientific, educational, aesthetic, and ecological values; the present and future rapid population spread throughout the state of Montana into its open spaces is creating serious problems of lack of open space and overcrowding of the land; to lessen congestion and to preserve natural, ecological, geographical, and geological elements, the provision and preservation of open-space lands are necessary to secure park, recreational, historic, and scenic areas and to conserve the land, its biotic communities, its natural resources, and its geological and geographical elements; and

WHEREAS, in 1969 the Montana legislature also found that preserving open-space land is essential to addressing these problems, the accomplishment of these purposes, and the health and welfare of the citizens of the state; and the expenditure of public funds for these purposes constitutes a public benefit; and

WHEREAS, § 76-6-104, M.C.A., defines open-space land as any land which is provided or preserved for: park and recreational purposes; conservation of land or other natural resources; historic or scenic purposes; or assisting in the shaping of the character, direction, and timing of community development; and

WHEREAS, § 76-6-109, M.C.A. authorizes, among other things, a public body to issue and sell general obligation bonds in the manner and within the limitations prescribed by applicable laws of Montana for the purpose of acquiring open space land consistent with the provisions of Title 76, Chapter 6, Part 1, M.C.A.; borrow funds or make expenditures to carry out the purposes of the Act; advance or accept advances of public funds; apply for and accept and use grants or other assistance; give security; make and execute contracts and other instruments; in connection with the real property acquired or designated for the purposes the Act, provide or to arrange or contract for the provision, construction, maintenance, operation, or

repair by any person or agency, public or private, of services, privileges, works, streets, roads, public utilities, or other facilities or structures that may be necessary to the provision, preservation, maintenance, and management of the property as open-space land; insure or provide for the insurance of any real or personal property or operations of the public body against any risks or hazards; demolish or dispose of any structures or facilities that may be detrimental to or inconsistent with the use of real property as open-space land; and exercise any of its functions and powers under this chapter jointly or cooperatively with public bodies; and

WHEREAS, the City of Missoula (the "City") first engaged in open space planning in the late 1960s and land use policies related to open space preservation and maintenance dating back to Missoula's first comprehensive plan, which was adopted in 1968 by the City and Missoula County (the "County") and called upon the community to "expand and equitably distribute areas for open spaces, parks, recreational and cultural facilities within the urban area and preserve mountainous areas and water courses in the Planning Area for future generations;" and

WHEREAS, the City of Missoula in 1981 passed "The City of Missoula Open Space Conservation Ordinance, to preserve significant open space land, including conservation land, parkland, trails, views and vistas, agricultural land, and urban forest, which, because of its aesthetic, scenic, recreational, historic or ecological value, it is in the public interest to preserve"; and

WHEREAS, the Missoula Urban Area Open Space Plan and 2006 Update of the 1995 Open Space Plan prioritizes preservation of open space lands to protect important agriculture and soils, scenic open space, river corridors, working lands, trail corridors, wildlife habitat, and natural resources including trees, clean water, and air quality; and

WHEREAS, the City of Missoula citizens voted to approve a \$5,000,000 bond in 1995 and all of the proceeds have been used to accomplish multiple open space goals; and

WHEREAS, Missoula County citizens voted to approve a \$10,000,000 Open Space Bond in 2006, which helped protect over 30,000 acres of open space and provide 4.1 miles of paved and many miles of dirt trails in the Missoula Valley, and the current proceeds of those bonds have almost entirely been spent; and

WHEREAS, the population of the City and the County continues to grow and open space conservation and the provision of lands for recreation, natural resource protection, wildlife habitat, corridors, parklands, and working lands remains as essential today as when the Open Space Act was enacted; and

WHEREAS, open space land provides significant benefits to Missoula including ecosystem services such as clean air and water, health and wellness, education, recreation, relief from congestion and overcrowding, etc. and these benefits are available to all; and

WHEREAS, public open spaces, trails and parks are community assets that promote social equity and are available to all citizens regardless of race, color, national origin, ancestry, religion, creed, sex, age, marital or familial status, physical or mental disability, sexual orientation, gender identity or gender expression; and

WHEREAS, the City and County have recently conducted significant public outreach through open houses, focus groups, and a statistically valid public opinion survey on Parks, Recreation, Open Space, and Trails, and the results indicate strong support among residents for protecting natural resources such as water and air quality, habitat, and providing river access, natural areas to recreate in, and dirt and paved trails; and

WHEREAS, the City's Open Space Advisory Committee strongly supports City Council pursuing additional funding for open space restoration, stewardship, maintenance and acquisition and improvements to open-space lands of all types; and

WHEREAS, our City and County open-space lands and conservation partners continue to advocate support efforts to preserve open space and responsible stewardship of these lands, thereby providing the many benefits open-space lands provide; and

WHEREAS, trees on lands designated as open-space provide significant environmental and natural resources benefits, climate resiliency, improved air and water quality and other ecosystem benefits, thereby enhancing our quality of open space and community life; and

WHEREAS, trails and paths on lands designated as open-space provide significant benefits of health and welfare, reduction of congestion, improved air quality, and access for all; and

WHEREAS, it is recognized that the provision and preservation of these important open space lands require repairs, replacement, renovation, and stewardship to maximize the potential and value to the community and to assure goals of the Open Space Act are met; and

WHEREAS, the *Our Missoula*, City Growth Policy 2035 states in implementation objective 4.2 that pursuing a new open space bond to continue the open space program is a high priority within 3-5 years from adoption of the growth policy, which was adopted in November 2015; and

WHEREAS, the City, following extensive public process, has adopted numerous plans which support the benefits of a variety of open-space land types, including the 2004 Master Parks and Recreation Plan for the Greater Missoula Area, the 2016 Long Range and Active Transportation Plans, the 2015 Urban Forest Management Plan, the 2010 Conservation Lands Management Plan, the 2014 Parks/Open Space/Trails Asset Management Plan; and

WHEREAS, following extensive public process and technical review by experts, the Conservation Lands Management Plan, adopted by City Council in 2010, provides guidance in stewardship and management of over 4200 acres of open space lands, important habitat for numerous species, over 60 miles of trails, plus multiple special use areas for outdoor recreation and urban interface wildfire and storm water management, in the Missoula Valley through acquisitions and easements; and

WHEREAS, the purpose of a conservation and responsible stewardship mill levy is to provide adequate resources for responsible stewardship, maintenance, and restoration of open space and conservation lands, owned and managed by the City of Missoula for native vegetation,

wildlife habitat, outdoor recreation, access to and protection of water bodies, scenic views, and protection of natural resources; and

WHEREAS, a perpetual conservation and responsible stewardship mill levy allows for future acquisition of important open space parcels as well as certainty for long range planning for necessary improvements, stewardship, and management of open space conservation lands; and

WHEREAS, conservation lands are generally managed as natural areas, including riparian corridors along creeks and rivers, wetlands, grasslands, open or wooded hillsides, but both large and small scale conservation lands provide for relief from the urban environment, nature connectedness, active outdoor recreation, as well as opportunity for contemplation; and

WHEREAS, conservation lands, natural areas and parklands require restoration, stewardship and improvements to ensure they remain a valuable asset to be enjoyed by all citizens; and

WHEREAS, the City has identified through the aforementioned adopted plans, the need to address not only protection of open-space lands, but also the daily maintenance and long term stewardship of these open space lands; and

WHEREAS, set forth on Exhibit A is a non-binding, illustrative list of City projects and stewardship actions and preliminary estimated costs, which list is not intended to be exhaustive, definitive, or final, but is intended to provide examples of the types of projects the City has identified interest in pursuing, to the extent eligible for payment with proceeds of bonds, it being emphasized that such list is meant only to provide some information on the range of potential City undertakings and all costs are preliminary and are rough estimates that are subject to change; and

WHEREAS, it is proposed that the City and the County will enter into an Interlocal Agreement which would set forth the limitations and procedures for the expenditure of the proceeds, to be split equally, of the Open Space Bonds; and

NOW THEREFORE, BE IT RESOLVED, that the Mayor and the City Council of the City of Missoula adopt this resolution in support of the Missoula County Commissioners holding a public hearing and, pending the hearing, placing the question of a Fifteen Million dollar county-wide open space general obligation bond for the purpose of enjoying, preserving and enhancing conservation lands before the voters in the 2018 general election, which, if the proposition passes, will provide funds to pay the costs of purchasing interests in and improving open-space lands, and associated costs, all as more particularly set forth in the final bond ballot question of the County to be presented to eligible voters.

BE IT FURTHER RESOLVED, that the City Council requests the Mayor work with his staff, counsel, and others regarding preparation of language allowing the City to conduct a special election, pursuant to § 15-10-425, M.C.A. to request that the Council be authorized to levy up to 4.0 mills, to raise approximately \$500,000 annually, for the purpose of providing the funds to pay the costs of stewardship and conservation of open-space conservation lands, including care of, improvements to, and acquisition of open-space lands, and related costs, all as more

particularly set forth in the final mill-levy election question of the City to be presented to eligible voters.

PASSED AND ADOPTED this  $25^{TH}$  day of June, 2018

ATTEST: APPROVED:

# Exhibit A – Projects for the 2018 Proposed County Wide General Obligation Bond and Proposed City Wide Conservation and Responsible Stewardship Mill Levy

The following list of potential projects is not exhaustive, definitive, or final, and actual projects and their costs well be determined through public proceedings at a later date.

# \$15M (\$7.5 each County/City)

All amounts are rough, gross, and approximate figures and intended as proposed guidelines for spending, and amounts are subject to change. Opportunity for partnerships and matching would likely impact final figures. Projects are illustrative. Nothing herein means or shall be construed to mean that the City shall dedicate any particular dollar amount from the proceeds of the bonds or otherwise to any of the projects below.

#### Clark Fork Restoration/Access \$1.5M

(Possible expansion to include immediate tributaries urban area. Should have excellent leverage with multiple government and non-government partners)

# Acquisition \$3.0M

Open Space Preserves, Habitat, Trail/Greenway/Wildlife Corridors, Social Equity in underserved areas, 10-minute walk to park/trailhead, Ag lands, Conservation Easements. (Good leverage potential Open Space, Agriculture, Recreation, Trail, and Housing partners. Include cost to acquire and related, as well as being eligible for immediate costs to develop/prepare for opening if fee simple open space with public access.)

## Reforest Parks/Open Spaces \$250K

(Restore tree canopy lost to aging/dying forest in designated open-space lands (public parks, greenways, open spaces) to maximize canopy benefit of clean air/water, conservation/climate. Good leverage potential with DNRC, Trees for Missoula, Conservation/Climate groups, and possibly Utilities, with Utilities matching with trees in ROW as allowed.)

#### Conservation Lands Trails, TH's \$500K

(Restore trails, trailheads, close trails, rebuild trails, maps, kiosks, signage, to maximize potential at TH's and on trails, while limiting impacts to important habitat areas. Good leverage potential with recreation partners, RTP grants, Impact Fees. Provide \$250K match for North Hills Waterworks Trailhead improvements as well as major restoration project on existing open space conservation lands.)

#### Trails \$2.25M

(Addresses the stewardship of existing urban pathways providing the essential links to open space conservation lands. Projects provide benefits of energy conservation, reduction of congestion, air/water quality, and are likely to leverage URD/ TIF support as well as transportation grants. Also, eligible for expansion efforts.)

## 2018 Proposed Levy for Conservation and Responsible Stewardship \$500K

Funds to support stewardship (daily/routine cyclical maintenance) of conservation lands and future acquisitions as appropriate and needed.

#### CERTIFICATE AS TO RESOLUTION AND ADOPTING VOTE

I, the undersigned, being the duly qualified and acting recording officer of Missoula County, Montana (the "County"), hereby certify that the attached resolution is a true copy of a Resolution 2018-111 entitled: "A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS SUBMITTING TO THE QUALIFIED ELECTORS OF MISSOULA COUNTY, MONTANA, THE QUESTION OF ISSUING GENERAL OBLIGATION BONDS OF THE COUNTY IN THE TOTAL PRINCIPAL AMOUNT OF UP TO FIFTEEN MILLION AND NO/100 DOLLARS (\$15,000,000.00) FOR THE PURPOSE OF CONSERVING, ENJOYING, AND ENHANCING OPEN-SPACE LANDS IN MISSOULA COUNTY SUBJECT TO THE TERMS AND CONDITIONS SET FORTH HEREIN" (the "Resolution"), on file in the original records of the County in my legal custody; that the Resolution was duly adopted by the Board of County Commissioners of the County at a meeting on July 9, 2018, and that the meeting was duly held by the Board of County Commissioners and was attended throughout by a quorum, pursuant to call and notice of such meeting given as required by law; and that the Resolution has not as of the date hereof been amended or repealed.

I further certify that, upon vote being taken on the Resolution at said meeting, the following Commissioners voted in favor thereof:

DAVID STRUMANER (4	THE LEAN CLETISS, NICOLE ROWLEY
	; voted against the
same: NA	; abstained from voting
thereon: NA	; or were
absent: N/A	·

WITNESS my hand officially this 9th day of July, 2018.

#### RESOLUTION NO. 2018-111

A RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS SUBMITTING TO THE QUALIFIED ELECTORS OF MISSOULA COUNTY, MONTANA, THE QUESTION OF ISSUING GENERAL OBLIGATION BONDS OF THE COUNTY IN THE TOTAL PRINCIPAL AMOUNT OF UP TO FIFTEEN MILLION AND NO/100 DOLLARS (\$15,000,000.00) FOR THE PURPOSE OF CONSERVING, ENJOYING, AND ENHANCING OPEN-SPACE LANDS IN MISSOULA COUNTY SUBJECT TO THE TERMS AND CONDITIONS SET FORTH HEREIN.

#### RECITALS

WHEREAS, a county as a public body is authorized pursuant to Section 76-6-109, M.C.A., to, among other things, issue and sell general obligation bonds in the manner and within the limitations prescribed by applicable laws of Montana for the purpose of acquiring open-space land consistent with the provisions of Title 76, Chapter 6, Part 1, M.C.A. (the "Act"); and

WHEREAS, Section 76-6-104, M.C.A., defines open-space land as any land which is provided or preserved for: park and recreational purposes; conservation of land or other natural resources; historic or scenic purposes; or assisting in the shaping of the character, direction, and timing of community development; and

WHEREAS, a county is authorized pursuant to Title 7, Chapter 7, Part 22, M.C.A., to issue general obligation bonds pledging the general credit of the county for that purpose upon approval of the electorate of the county, provided that such indebtedness and all other indebtedness of the county does not exceed 2.5% of the total assessed value of taxable property within the county as ascertained by the last assessment for state and county taxes; and

WHEREAS, a board of county commissioners is authorized pursuant to Section 7-7-2223, M.C.A., to call a bond election by adopting a resolution to that effect; and

WHEREAS, open-space land provides significant benefits to Missoula County citizens including ecosystem services and values such as clean air and water, health and wellness, education, recreation, relief from congestion and overcrowding, etc., and these benefits are available to all; and

WHEREAS, the Growth Policy adopted by the Board of County Commissioners (the "Board") of Missoula County, Montana (the "County") in 2016 is guided by the principle that the right to a clean and healthful environment is fundamentally important and the County's natural and cultural resources make this place unique and they should be conserved, enhanced, and enjoyed; and

WHEREAS, a goal of the Growth Policy is to conserve vital natural resources including surface and ground water, air quality, agricultural resources, iconic landscapes, fish and wildlife species and their habitats, and native plant communities, and another goal is to promote healthy, active communities; and

WHEREAS, the Missoula Urban Area Open Space Plan and 2006 Update of the 1995 Open Space Plan adopted by the City of Missoula (the "City") and Board prioritizes preservation of

open-space lands to protect important agriculture and soils, scenic open space, river corridors, working lands, trail corridors, wildlife habitat, and natural resources, including trees, clean water, and air quality; and

WHEREAS, the City and County have recently conducted significant public outreach through open houses, focus groups, and a statistically valid public opinion survey on Parks, Recreation, Open Space, and Trails, and the results indicate strong support among residents for protecting natural resources such as water and air quality, habitat, and providing river access, natural areas in which to recreate, and dirt and paved trails; and

WHEREAS, it is desirable that the Board submit to the electors of the County the question of whether the County should be authorized to issue general obligation bonds in the amount of up to \$15,000,000 for the purpose of conserving, enjoying, preserving, and enhancing open-space lands; and

WHEREAS, it is agreed that the City and the County will enter into an Interlocal Agreement which would set forth the limitations and procedures for the expenditure of the bond proceeds; and

WHEREAS, it is the judgement of the Board that the principal sum of up to Fifteen Million and No/100 Dollars (\$15,000,000.00) is necessary to carry out the purpose set forth above; and

WHEREAS, the Board has determined that the issuance of general obligation bonds in the total principal amount of up to \$15,000,000 will not cause the County to exceed its indebtedness limitation, which as calculated using the fiscal year 2017 audited financial statements of the County is \$327,098,727.00; and

WHEREAS, the Board has determined there should be submitted to the qualified electors of the County on November 6, 2018, the question of whether the Board shall be authorized to issue and sell general obligation bonds of the County in one or more series in the aggregate principal amount not to exceed Fifteen Million and No/100 Dollars (\$15,000,000.00) for the purpose of providing funds to pay costs of conserving, enjoying, and enhancing open-space land, to include providing public access to water and land; conserving agricultural lands, fish and wildlife habitat, and rivers, lakes, and streams; protecting scenic views; and making improvements to lands acquired or designated as open space that are accessible to the public, by purchasing land, easements, or other interests in land from willing landowners and paying for improvements and costs related to or serving lands acquired or designated as open space, including transaction and project costs and fees, all with citizen input, and costs associated with the sale and issuance of the bonds, which bonds shall bear interest at a rate or rates to be determined at the time of sale, be payable semiannually during a term not to exceed twenty (20) years for each series of bonds, and be subject to the County annual independent audit; and

WHEREAS, it is the judgement and determination of the Board that each series of such bonds will be payable during a term not to exceed twenty (20) years and shall be redeemable on the interest payment date after one-half of the term for which they are issued.

NOW, THEREFORE, BE IT RESOLVED by the Board of the County as follows:

- 1. <u>Calling of the Election</u>. The Board hereby calls and directs a special County election to be held on November 6, 2018, in conjunction with the general election, for the purpose of voting on the following question:
  - For the purpose of conserving, enjoying, and enhancing open-space land, to include providing public access to water and land; conserving agricultural lands, fish and wildlife habitat, and rivers, lakes, and streams; protecting scenic views; and making improvements to lands acquired or designated as open space that are accessible to the public, shall the Board of County Commissioners of Missoula County (the "County") be authorized to sell and issue general obligation bonds of the County in one or more series in the aggregate principal amount not to exceed Fifteen Million and No/100 Dollars (\$15,000,000.00) to pay the costs of purchasing land, easements, or other interests in land from willing landowners and of improvements and costs related to or serving lands acquired or designated as open space, including transaction and project costs and fees, all with citizen input, and costs associated with the sale and issuance of the bonds, which bonds shall bear interest at a rate or rates to be determined at the time of sale, be payable semiannually during a term not to exceed twenty (20) years for each series of bonds, and be subject to the County annual independent audit?
- 2. Conduct of Election. All qualified electors of the County shall be entitled to vote at the bond election. The Missoula County Election Administrator is hereby requested and authorized to give proper notice of the close of registration and thereafter prepare printed lists of the electors in the County entitled to vote in the election in the County and to conduct the election in the form and manner prescribed by law. The Election Administrator shall prepare the ballot and arrange for the printing of the ballot.
- 3. Notice of Election. The Election Administrator is hereby authorized and requested to cause notice of the call and holding of the election to be given by publishing notice at least three times, no earlier than 40 days and no later than 10 days before the date of the election in the *Missoulian*, a newspaper of general circulation in the County. The notice of election as published shall read substantially as follows:

#### NOTICE OF MISSOULA COUNTY OPEN SPACE GENERAL OBLIGATION BOND ELECTION

Missoula County, Montana November 6, 2018

NOTICE IS HEREBY GIVEN by the Board of County Commissioners (the "Board") of Missoula County, Montana (the "County"), that pursuant to a certain resolution duly adopted at a regular meeting of the Board on July 9, 2018, a special election of the registered voters of the County will be held on November 6, 2018, in conjunction with the general election, for the purpose of voting on the following question:

For the purpose of conserving, enjoying, and enhancing open-space land, to include providing public access to water and land; conserving agricultural lands, fish and wildlife habitat, and rivers, lakes, and streams; protecting scenic views; and making improvements to lands acquired or designated as open space that are accessible to the public, shall the Board of County Commissioners of Missoula County (the "County") be authorized to sell and issue general obligation bonds of the County in one or more series in the aggregate principal amount not to exceed Fifteen Million and No/100 Dollars (\$15,000,000.00) to pay the costs of purchasing land, easements, or other interests in land from willing landowners and of improvements and costs related to or serving lands acquired or designated as open space, including transaction and project costs and fees, all with citizen input, and costs associated with the sale and issuance of the bonds, which bonds shall bear interest at a rate or rates to be determined at the time of sale, be payable semiannually during a term not to exceed twenty (20) years for each series of bonds, and be subject to the County annual independent audit?

The polling places for the election shall be the normal polling places for County residents during the general election and polls shall be open between the hours of 7:00 a.m. and 8:00 p.m.

Absentee ballots may be obtained at the office of the Missoula County Fairgrounds Election Center, 1101 South Ave. W., Bldg 15, Missoula, Montana 59801, from October 9, 2018, until 12:00 pm noon, November 5, 2018. Electors who miss the close of registration deadline may register late at the Missoula County Fairgrounds Election Center, 1101 South Ave. W., Bldg 15, Missoula, Montana 59801, from October 10, 2018, through 12:00 pm (noon) on November 5, 2018, and November 6, 2018, from 7:00 am through 8:00 pm.

- 4. <u>Ballots</u>. The Election Administrator is hereby requested to prepare suitable ballots for use at the election at the polling places, together with the precinct lists.
  - 5. <u>Form of Ballot</u>. The ballot shall be printed in substantially the following form:

OFFICIAL BALLOT MISSOULA COUNTY, MONTANA MISSOULA COUNTY OPEN SPACE GENERAL OBLIGATION BOND ELECTION NOVEMBER 6, 2018

INSTRUCTIONS TO VOTERS: Make an X or similar mark in the vacant square before the words "BONDS—YES" if you wish to vote for the bond issue; if you are opposed to the bond issue, make an X or similar mark in the square before the words "BONDS—NO".

For the purpose of conserving, enjoying, and enhancing open-space land, to include providing public access to water and land; conserving agricultural lands, fish and wildlife habitat, and rivers, lakes, and streams; protecting scenic views; and making improvements to lands acquired or designated as open space that are accessible to the public, shall the Board of County Commissioners of Missoula County (the "County") be authorized to sell and issue general obligation bonds of the County in one or more series in the aggregate principal amount not to exceed Fifteen Million and No/100 Dollars (\$15,000,000.00) to pay the costs of purchasing land, easements, or other interests in land from willing landowners and of improvements and costs related to or serving lands acquired or designated as open space, including transaction and project costs and fees, all with citizen input, and costs associated with the sale and issuance of the bonds, which bonds shall bear interest at a rate or rates to be determined at the time of sale, be payable semiannually during a term not to exceed twenty (20) years for each series of bonds, and be subject to the County annual independent audit?

OPEN SPACE BONDS — YES
OPEN SPACE BONDS — NO

6. <u>Election Administrator</u>. A copy of this resolution will be provided to the Election Administrator as soon as possible after its adoption and approval in order to inform him/her of the details of the election and the pertinent requests and authorizations as to the conduct of the election.

- 7. Open Space Bond Account. If authorized to issue and sell bonds for the purpose set forth in this resolution, the County will deposit the proceeds of such bonds, exclusive of accrued interest, in the Open Space Bond Acquisition Account, which shall be maintained and disbursed by the County and used for the authorized purposes, consistent with the requirements in Section 8 hereof, as may be further augmented by an Interlocal Agreement to be entered into between the City and County, and such additional resolutions or ordinances of the Board as it deems necessary.
- 8. <u>Allocation of Proceeds.</u> An interlocal agreement will be developed by the staff and approved by the governing bodies of the County and the City.

#### 9. Reimbursement Expenditures.

- (a) The United States Department of Treasury has promulgated final regulations governing the use of proceeds of tax-exempt bonds, all or a portion of which are to be used to reimburse the County for project expenditures paid by the County prior to the date of issuance of such bonds. Those regulations (Treasury Regulations, Section 1.150-2) (the "Regulations") require that the County adopt a statement of official intent to reimburse an original expenditure not later than 60 days after payment of the original expenditure. The Regulations also generally require that the bonds be issued and the reimbursement allocation made from the proceeds of the bonds within 18 months (or three years, if the reimbursement bond issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) after the later of (i) the date the expenditure is paid or (ii) the date the project is placed in service or abandoned, but (unless the issue qualifies for the "small issuer" exception from the arbitrage rebate requirement) in no event more than three years after the date the expenditure is paid. The Regulations generally permit reimbursement of capital expenditures and costs of issuance of the bonds.
- (b) Other than (i) expenditures to be paid or reimbursed from sources other than the bonds, (ii) expenditures permitted to be reimbursed under the transitional provision contained in Section 1.150-2(j)(2) of the Regulations, (iii) expenditures constituting preliminary expenditures within the meaning of Section 1.150-2(f)(2) of the Regulations, or (iv) expenditures in a "de minimus" amount (as defined in Section 1.150-2(f)(1) of the Regulations), no expenditures for the projects identified in the above ballot have been paid by the County before the date 60 days before the date of adoption of this resolution.
- (c) The County reasonably expects to reimburse the expenditures made for costs of the projects identified in the above ballot out of the proceeds of bonds in an estimated maximum aggregate principal amount of up to \$15,000,000 after the date of payment of all or a portion of the costs of such projects. All reimbursed expenditures shall be capital expenditures, a cost of issuance of the bonds or other expenditures eligible for reimbursement under Section 1.150-2(d)(3) of the Regulations.

- (d) As of the date hereof, there are no County funds reserved, allocated on a long-term basis or otherwise set aside (or reasonably expected to be reserved, allocated on a long-term basis or otherwise set aside) to provide permanent financing for the expenditures related to such projects, other than pursuant to the issuance of the bonds. The statement of intent contained in this resolution, therefore, is determined to be consistent with the County's budgetary and financial circumstances as they exist or are reasonably foreseeable on the date hereof.
- (e) The County's Chief Financial Officer shall be responsible for making the "reimbursement allocations" described in the Regulations, being generally the transfer of the appropriate amount of proceeds of the bonds to reimburse the source of temporary financing used by the County to make prior payment of the costs of such projects. Each allocation shall be evidenced by an entry on the official books and records of the County maintained for the bonds or the project and shall specifically identify the actual original expenditure being reimbursed.

PASSED AND ADOPTED by the Board of County Commissioners of Missoula County, Montana, this 9<sup>th</sup> day of July, 2018.
