Hi Jason,

I wanted to let you know that staff is reviewing the items you left at the meeting Wednesday. Once they have reviewed them, I'll be back in touch with next steps.

Thanks,

John

John – are there any preliminary ideas of when we would have our next LUP?

Also, what else do we need to cover while we get updates on the stormwater and Geotech info? I have lost track of what needs to be addressed.

Hi Jason,

We covered this point during last week's meeting.

I appreciate your interest in responding through email, but these conversations need to happen in public at our committee meetings.

I expect we will have the opportunity to discuss both block length and pedestrian access Wednesday.

Thanks,

John

Mary – I see one item in the Findings of Fact in Memo 5 that is not complete in my opinion. I believe it was not complete in the original staff report prepared by Anita. I think it is important to have the complete language as the part you have chosen to show does not convey the original intent of the regulation which allowed flexibility in design when topographic constraints exist.

25. Per Title 20 Section 20.40.180.F, blocks may not be longer than 480 feet. Pedestrian access

easements that create a break within a block may be required where there is a need for pedestrian access to school bus or transit stops...

I read directly from Title 20:

*Blocks shall not exceed 480 feet in length and be wide enough to allow two tiers of dwelling units in a Townhome Exemption Development **unless topography or other constraining circumstances are present**.*

Thanks

Subject: Hillview Crossing TED Conditional Use

Attached is Memo No.5 – Block Length and Pedestrian Paths for the Hillview Crossing TED Conditional Use and comment from Elizabeth Erickson regarding trails and block length. Both of these documents will be uploaded to the SIRE record for this item at LUP this Wednesday, March 20, 2019.

Best regards,

Mary McCrea
