Public Hearing:	N/A
Deadline:	N/A

Background and Alternatives Explored:

Missoula Water proposes to hire IMEG Corp. to provide design and construction administration services for the replacement of approximately 1,700 linear feet of aging water main. The existing pipe is Kalmein which has been identified as a Priority 1 water main pipe type for replacement. This project was chosen because an on-going leak study has identified this area as having a high likelihood of leaking water mains. This project also pairs well with the water main that was replaced in S 3rd Street in 2020 and allows us to remove most of the Priority 1 replacement water main in this area of town.

Financial Implications:

\$85,140.00 from Water Enterprise Fund
