| Deadline: | Click or tap here to enter text. |

Background and Alternatives Explored:

Missoula Water is proposing to hire Morrison-Maierle to design and perform construction administration for the replacement of water mains in East Central and East Sussex between Hilda Ave and Maurice Ave. This project will replace approximately 2,900 linear feet of 6" invasion steel pipe from 1946. This pipe segments are identified as a priority replacement due to their age, material type, and susceptibility to leaking. The main in South Ave, adjacent to this project site was replaced in 2019. This project will dovetail with that project to remove the remaining sections of priority replacement pipe in this section of town.

Financial Implications:

\$129,514 from the water enterprise fund
