| Referral to committee: | August 23, 2021 |
| Committee discussion: | August 25, 2021 |
| Council action (or sets hearing): | August 30, 2021 |
| Public Hearing: | N/A |
| Deadline: | N/A |

Background and Alternatives Explored:

The Grant Creek Lift Station was initially constructed in 1980 as part of the Grant Creek Center Subdivision and SID #472. The lift station is a wet pit / dry pit station. The station serves tributary areas of Momont #2 Lift Station and gravity collection along Expressway, International Way and Patterson Road. With the Grant Creek Lift Station being the most downstream lift station along the Expressway to the Wye tributary area, improvements are needed to accommodate growth and upstream capacity improvements recently completed and/or planned in the Wye and Reserve Street areas.

Morrison-Maierle was only contracted to do the design and bidding services previously. This amendment is necessary to cover construction and post-construction engineering services now that the project is moving to construction. Construction is anticipated in fall of 2021.

Financial Implications:

\$63,500 from the Wastewater Enterprise Fund
