Subject: Objection to Unleash Dog Kennel Boarding Conditional Use 2100 S Reserve St.

Good Morning,

I have a strong objection to issuing a conditional release to Unleash Dog Kennel at 2100 S Reserve St.

Although this address appears to be on Reserve street the business is bordering a residential area. I live kitty corner from the business and they are not pleasant neighbors as it is now. I can not imagine how bad it is going to be if you allow them to board 20 dogs. I live on the corner of Clark and Kent ave and the noise from that business is not something that you want to listen to all day much less all night. There are dogs fighting and people yelling intermittently pretty much all day long. They allow the dogs out into a pen area that is outside facing our residential area. There is no grass or yard in that area just asphalt. The noise is probable amplified by the building and our proximity. I have two dogs and they were pretty quite until the dog walking service started up. Every time they walk a dog by here my dogs naturally bark. Every time a dog barks over at the business my dogs bark. When the dogs are barking and the people are yelling my dogs bark. Please do not allow this to continue.

If there is any way to measure the noise I request it be done.

Thank you!

Don Sawyer
