Public Hearing (if required):	N/A
Deadline:	N/A

Background and Alternatives Explored:

Public Works & Mobility is proposing to enter into a Professional Services Agreement with IMEG, Co. to design and perform construction administration for the replacement of water mains in E Front St from Madison St to Jackson Street; Monroe St from E Front to E Broadway; and Jackson St from E Front to E Broadway. This project will connect to a water main that was bored across Madison Street in 2013 by Mountain Water and run east in E Front St. This project will replace approximately 950 linear feet of 6" water main which varies in pipe type from kalmein, cast iron, steel, and invasion steel and varies in age from 1920, 1931, and 1948. It will also replace 225 linear feet of 2" galvanized steel main from 1931. It will also replace the water main under Rattlesnake Creek, a portion of which is no longer buried and exposed on the bank of the creek.

Financial Implications:

\$84,840 from the Water Enterprise Fund
