| Current Occupation: student | Current Employer: n/a |
| Previous Community Service: -Clark Fork Coalition river clean up -Love Boat Paddle Co. river clean up -Free Cycles volunteer -Food Bank volunteer | |
| What is your interest in serving on this board, commission or committee? I am interested in this position so I can engage in actively learning, changing, and educating my community to proactively make healthier decisions for our future resulting in minimal impact on the Earth's climate. | |
| Do you have special knowledge, interest or experience that would qualify you for a position on this board, commission or committee? I recognize that global warming is among the most pressing issues humanity is faced with at the moment. Any problem we've had before is now amplified; the poor are poorer, natural disasters are becoming more frequent and devastating, the hungry and thirsty are more hungry and thirsty. If we come together and each make small differences, we will reach a healthier planet. For example, I live in a house with solar panels that makes more energy than my whole family uses, I have always composted, recycled, and in the warm seasons, the majority of our meals come from our backyard garden. My parents used to run a solar panel company, and I am learning about the science of climate change in school. These are small but meaningful actions that if pushed for in our community, can make a huge difference. While I don't have a degree in climate change studies, I am craving to learn even more and with that "privilege to know, [I] have the duty to act." -Albert Einstein. | |
| PLEASE LIST TWO PERSONAL REFERENCES: | |
| Name: Julie [REDACTED] | Daytime Phone: (406) [REDACTED] |
| Name: Sam [REDACTED] | Daytime Phone: (406) [REDACTED] |

Parent or Caregiver consent is required.

I consent for my child to apply and if selected, to participate on the Energy and Climate team. I understand my child's name, contact information and image will be part of the public record; and that meeting videos and audio are streamed live and are available on demand to the public.
