**Date:** Sunday, October 3, 2021 10:07:03 AM

---

Hi

Every owner will receive a memo from this group soon. We received ours. What got our attention when it stated "Development Services is required to provide notification to all property owners WITHIN 150 FEET of the subject parcel". If this new zoning passes anything goes (from Sawyer to Osprey Field Parking, to especially condos A&C, all ground floor properties, and Camden and beyond.

Thought you should know.

T

Let us make this simple and clear. The current and past developers and related architects of the Millsite Revitalization Project are in this for the money. They are constantly changing things in the middle of a stream. The original zoning protects all residents/owners

who bought into living here from realtors/developers taking advantage of the situation. Now they want to change this zoning at our expense. We are not in favor of this zoning change- it is way too vague and benefits only the developer / architect and does not provide

any protection from current home/condo owners. Missoula gov't is famous for allowing developers change zoning to their advantage of the developer/architect over residential needs. WE ARE NOT IN FAVOR OF THIS ZONING CHANGE, IT WILL NEGATIVELY AFFECT OUR NEIGHBORHOOD.

PLEASE STOP THIS MADNESS AND UNNECESSARY CHANGE.

Very disappointed!
