What is your interest in serving on this board, commission or committee? I am very interested in continuing to strengthen the MUTD, as we enhance efforts to build a transportation system that meets the needs of all Missoulians and contributes to a healthy community, today and into the future. Over the last decade I have invested in understanding the value of active transportation - especially our transit system - as part of the solution to a resilient, climate-friendly Missoula, and I hope to contribute in an effective and helpful manner moving forward.	
Do you have special knowledge, interest or experience that would qualify you for a position on this board, commission or committee? I have learned a great deal during my first term on the MUTD board. This deep dive into the workings of a transit system and how our system is connected to issues of growth, land use planning, low-income concerns and social equity is serving me well as a current Board member. My experience on the MUTD board together with my broader involvement in community planning positions me well to continue to actively contribute to this Board.
