Background and Alternatives Explored:

The Type 3 engine will be replacing a 2012 Type 3 CAFS (compressed air foam system). The staff vehicle (1/4-ton pick-up) will replace a 2006 Ford Ranger belonging to the Fire Prevention Bureau. These vehicles will be purchased through a GPO following city procurement policy. Additional equipment for these vehicles is required and will be purchased separately and installed by the fire department's maintenance division after delivery.

Both these vehicles are on this year's core vehicle replacement schedule.

Financial Implications:

Type 3 fire engine	\$400,000.00
¼ ton Pick-up	\$40,000

Total: \$440,000.00
