

Public Comment River Views Subdivision and Rezone Engage Missoula		
<p>19 homes is not near enough. Since all you're hearing from is whiny NIMBYs, I'll tell you what a poor person wants. WE NEED MORE HOUSING. Make it mixed use development, with first floor small businesses and floors 2-5 apartments. Then make sure the busses get there with 15 minute service. That means less car dependence, less cars needing parking, more room for humans. It's also great for us poor people who hate having the strangling financial weight of a car. After paying for the car itself, you have to pay for insurance, maintenance, gas, and a place to park it. I don't know about you, but that's 5 thousand dollars a year that I'd really prefer to keep.</p> <p>You guys can do better than 19 homes. Make it 76 with decent public transit, a corner grocery store, and then we're talking.</p>	3/10/22	Fiona Jallings
