Background and Alternatives Explored:

In November of 2020 Council adopted a Utility Service Area boundary in Resolution 8468. The resolution attached to this referral updates the Utility Service Area to include areas that were inadvertently left out of the original boundary and include the Circle H subdivision which may connect to the City of Missoula water system in the near future. This update is administrative in nature to clean up the Utility Service Area Boundary and does not include an evaluation of including larger tracts of land currently outside of the boundaries.

Financial Implications:

None
