What is your interest in serving on this board, commission, or committee? I work for the Missoula Fire Department and I have a very narrow perspective on the bigger picture in regards to emergency planning and preparedness in and around Missoula County and western Montana. I wish to be engaged in emergency planning beyond what my day to day job entails. I have attended the LEPC meetings for the past 2 years and I would like the opportunity to formally obtain public service commission experience.

Do you have any special knowledge, interest, or experience that would qualify you for a position on this board, commission, or committee?

Yes. I have spent the past 10+ years working for the Missoula Fire Department, as well as 8 seasons before that as a Wildland Firefighter. I have served on Incident Command Teams. I have lengthy training and experience in operations, logistics, safety and the incident command system. I have responded to wildland fires, hazardous materials incidents, flood events, avalanche recovery, and hurricane recovery. My day to day job is emergency mitigation. I believe having members on the committee that have current and relevant experience is a benefit to not only the committee but also the public that this committee is charged with serving.
