**Background and Alternatives Explored:**  
Public Works & Mobility is proposing to amend a Profession Services Agreement with IMEC, Co. to expand the design and construction oversight of the replacement of water mains in E Front St from Madison to Van Buren. As design progress on the original project extents it became apparent that if the project limits were expanded a bit more approximately 1,250 linear feet of invasion steel, kalmein, and small diameter galvanized mains could be abandoned. This could be done with approximately 800 feet of additional water mains and some new water service lines. IMEG has provided a budget amendment to survey and design these new water mains and services and oversee their construction as part of the original East Front Street Water Main Replacement project.

**Financial Implications:**  
\$36,892.50 from the water enterprise fund.
