Dave,

Here is the reply. After we got off the phone I did find the sewer permit and did confirm that Mickey had done some inspections out there. Doesn't look like we have accepted it (need the ditch card) but they should be able to easily make the December deadline.

Thanks,

Andy Schultz, PE | he/him/his | City Engineer for Utilities

Thanks Andy. You gave me a small panic thinking I didn't buy the sewer permit but I did. Permit number 2022MSS-SWR-00416

The sewer is currently installed. I havnt submitted a ditch card yet however I can get it submitted fairly soon if that helps the process.

Tom

I think I'm just really bad at searching our permitting system and I believe that I just found the permit. That being said, an update on the status would be great. Our Planning Department is asking for a review they are doing on a postponement of annexation.

Thanks everyone!

Russell/Tom,

Andy from the City (copied here) gave me a call and was wondering when we plan on making the connection to the City sewer. I guess the permits have not been pulled yet. Do you have a timeline for this?
