D. RESPONSES TO REVIEW CRITERIA REQUIRED BY STATE LAW & THE CITY OF MISSOULA TITLE 20 ZONING ORDINANCE

Review Criteria. Provide a response to the following review criteria for rezone requests.

1. Whether the zoning is made in accordance with a growth policy;

RT5.4 is one of the relatable zoning designations for the land use designation of Residential Medium Density, along with RT10, R8, R5.4. RT5.4 meet the criteria of the growth policy. In order for future development options and to make consistant with adjacent properties East on Carol Ann Court, the current property meets the criteria of the current policy and would best be served under RT5.4 to be consistant with adjacent properties.

2a. Whether the zoning is designed to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements

2b. Whether the zoning considers the effect on motorized and non-motorized transportation systems;

THIS ANSWER IS FOR 2a: 2a will not let us add a narative.

The subject property is accessed by Carol Ann Ct. The nearest bus stop is ¼ mile away at S 3rd St W and Johnson St served by the Route 2. The property is served by city sewer and water. The subject property is within the MCPS school district, specifically the Hawthorne Elementary

School, the C.S. Porter Middle School, and the Big Sky High School districts. The subject property is near the Milwaukee Trail and both Bentley and Lafray parks. All of these conditions will remain consistent before and after the requested rezoning. Any future modifications to the site will comply with Public Works and Development Services regulations.

THIS ANSWER IS FOR 2b:

The proposed zoning would increase the maximum density of the subject property from 2 to 4 units. Any future modifications to the site will comply with Public Works and Development Services regulations. The site is accessed by Carol Ann Ct, a local city street with a ~30ft ROW, and there are sidewalks along this right-of-way. These sidewalks continue to the East and connect directly to the Milwaukee Trail. The ROW and trail are maintained by the City of Missoula

3. Whether the zoning considers the promotion of compatible urban growth;

The proposed zoning is consistent with the surrounding zoning and is compatible with the latest urban growth policy.

4a. Whether the zoning is designed to promote public health, public safety, and the general welfare;

4b. Whether the zoning is designed to secure safety from fire and other dangers;

4c. Whether the zoning considers the reasonable provision of adequate light and air;

4d. Whether the zoning conserves the value of buildings and encourages the most appropriate use of land throughout the jurisdictional area;

4a-4d DO NOT LET US ADD A NARRATIVE. HERE ARE THE FOLLOWING ANSWERS.

4a. The proposed zoning is consistent with the surrounding zoning and is compatible with the latest urban growth policy. The closest hospitals are: Community Medical Center (2.5 miles away) and Providence St. Patrick Hospital (2.4 miles away). The uses allowed in the RT5.4 zoning district will remain consistent with those allowed in RT10, with the exception of allowing Residential Storage Warehouses through a Conditional Use approval. Any future modifications to the site will comply with Public Works and Development Services regulations.

4b. The closest fire stations are: Missoula Rural Fire District Station 1 at 2521 South Avenue West (2 miles away) and Missoula Fire Department Station 2 at 247 Mount Avenue (2.3 miles away). All future modifications to the site will comply with the requirements of City Fire.

4c. The rezoning will not affect the current provision of light and air. The proposed zoning is consistent with the zoning of adjacent parcels. All vehicular use areas on the subject property are currently paved. Any future modifications to the site will comply with Public Works and Development Services regulations.

4d. This proposed rezone request if approved, will have no negative effect on the adjacent buildings or jurisdictional area. The existing home will remain on the property.

5. Whether the zoning considers the character of the district and its peculiar suitability for particular uses;

The proposed zoning already exists on the East adjacent properties on Carol Ann Court. The existing residential home meets the particular use and are compliant with both zoning criteria.

E. ATTACHMENTS

As separate attachments (8.5" x 11" or 11" x 17"), provide the following materials with the site clearly identified. A. Districts

1. List

The city's residential zoning districts are listed below. When this zoning ordinance refers to "residential" zoning districts or "R" districts, it is referring to these districts.

Map Symbol	District Name
R215	Residential 215
R80	Residential 80
R40	Residential 40
R20	Residential 20
RT10	Residential 10 (two-unit/townhouse)
R8	Residential 8
R5.4	Residential 5.4
RT5.4	Residential 5.4 (two-unit/townhouse)
R3	Residential 3
RT2.7	Residential 2.7 (two-unit/townhouse)
RM2.7	Residential 2.7 (multi-dwelling)
RM1.5	Residential 1.5 (multi-dwelling)
RM1	Residential 1 (multi-dwelling)
RM0.5	Residential 0.5 (multi-dwelling)
RMH	Residential Manufactured Housing Park

[1] There are two versions of the RM1 district: RM1-35 and RM1-45. Whenever this ordinance refers to the "RM1" district, the reference is referring to both the RM1-35 and RM1-45 districts.

2. Deciphering the District Names and Map Symbols

The "R" district names and map symbols are intended to provide a general indication of what is allowed in the district. The first letter, "R," denotes the residential orientation of the district. When a second letter following the "R" is present, that is an indication of a residential district that allows building types in addition to detached houses. "RT" districts allow two-unit and townhouse buildings, while "RM" districts allow multi-dwelling buildings in addition to other building types. The numeral following the "R," "RT," or "RM" is a shorthand reference to the allowed density, expressed in terms of the required minimum land area per dwelling unit (in thousands of square feet). The R5.4 district, for example, refers to a residential (detached house) zoning district that generally allows one dwelling unit per 5,400 square feet of parcel area.

B. Described

Descriptions of the residential building types and references to applicable regulations follow:

1. Detached House

A detached house is a principal residential building containing one dwelling unit located on a single parcel with private yards on all sides. Detached houses are subject to the parcel and building standards of 20.05.050 (Table 20.05-3). More than one detached house may be located on a single parcel, subject to compliance with all parcel and building standards, including minimum-parcel-area-per-dwelling-unit and building setback/separation standards.
