RE: Cooper Street Alley Water Main Replacement Project
City Project #2020-012, EQ #21-1262
Bid Results & Award Recommendation

Dear Andy,

As a summary, the bids for the above project were due electronically via the QuestCDN bidding site on November 2, 2021 at 2:00pm (local time), and then opened online through the QuestCDN site by Missoula City Clerk, Marty Rehbein. At the time of bid opening, one (1) electronic bid was received, from Prospect Construction, and was reviewed and considered responsive by the City Clerk at that time. IMEG then conducted an additional and more thorough review of the electronic bids to confirm the responsiveness of the bidders. For the submitted bid, the Contractor did not submit the City of Missoula Apprenticeship Form with their Bid Form in order to apply for the bidder's preference.

We have reviewed the submitted bids for completeness and accuracy and based on the unit prices, total bid price, and the application of the apprenticeship bidder's preference (for bid evaluation only). A review of the Bid Form completeness was conducted. All contractors acknowledged the three (3) addenda, listed 3 projects of similar complexity, listed ACI technician information, completed the Bid Form, completed the Debarment Certification form, and provided unit prices and totals for all items and schedules through the QuestCDN website.

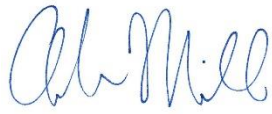

See attached for a Bid Tabulation including contractor(s) bid prices and the engineer's estimate. As there was only one responsive bid received, it has been determined that Prospect Construction is the apparent lowest responsive bidder with a total bid of \$1,013,580.50. Based on the thorough review of all bid conditions and prices, IMEG Corp. recommends Prospect Construction at the bid price above for the above-mentioned project.

Please see the included enclosures that are both for your records and are required to be provided to DEQ for the DWSRF loan program to receive Authorization to Award:

- Certified Bid Tabulation
- Bid Form, Bid Bond, Debarment Certification Form – Prospect Construction
- Addendum #1, #2, and #3
