

Health Board Interview Questions

1. What is your interest in serving on the Health/Air Pollution Control/and Water Quality District Boards?
2. What role do you think these Boards should play?
3. Describe your familiarity with the full range of services and functions provided by the Health Department.
4. Which of the above functions are you personally most interested in and what experiences and/or knowledge do you have that would aid you as a Health Board member?
5. What do you see as the most crucial issues affecting the protection of public health and the environment in Missoula in the next few years?
6. Describe any changes you would like to see in the operation of the Board or the department.
7. To the best of your knowledge, do you have any real or potential conflict of interest that may influence you as a Health Board member? How would you deal with a conflict of interest?
8. The City/County Health Board presently meets the 3rd Thursday of every month for an average of three hours. In addition, occasional voluntary ad hoc committees are formed, occasional evening hearings are held, and packets of information must be reviewed before meetings. Do you have the time to attend meetings and are you willing to do research with respect to health matters?
