

DRAFT: ORDINANCE (11-18-21)

A City of Missoula initiated ordinance generally amending Title 20, Missoula Municipal Code, the City Zoning Ordinance, to incorporate revisions in the following chapters: 20.10 Business and Commercial Districts, 20.15 Industrial and Manufacturing Districts, 20.40 Use- and Building-Specific Standards, 20.45 Accessory Uses and Structures, 20.100 Terminology, and 20.105 Use Classifications to incorporate regulations concerning legislative changes in the cannabis industry.

Be it ordained that Section 20.10.020 Table 20.10-1, Section 20.15.020 Table 20.15-1, Section 20.45.050E.11., Section 20.100.010, Section 20.105.040W, and Section 20.105.050D be amended as follows, and creation of Section 20.40.083.

20.10 – Business and Commercial Districts

20.10.020 – Allowed Uses

Explanation:

In 2021, the State of Montana Legislature adopted language permitting and regulating recreational cannabis businesses. In response, local jurisdictions were encouraged to update any existing regulations to be in step with the State. For Missoula, this includes adding the use cannabis dispensary and noting the zoning districts and any additional regulations the use is subject to. The term dispensary will apply to both medical and recreational cannabis sales.

Explanation:

In 2021, the State of Montana Legislature adopted language permitting and regulating recreational cannabis businesses. In response, local jurisdictions were encouraged to update any existing regulations to be in step with the State. For Missoula, this includes adding the use cannabis dispensary and noting the zoning districts and any additional regulations the use is subject to. The term dispensary will apply to both medical and recreational cannabis sales.

20.40 – Use- and Building-Specific Standards

20.40.083 – Cannabis

A. Applicability

These regulations apply to any cannabis use (medical or recreational), new or existing unless specifically exempted.

B. Dispensary

1. Location

Cannabis dispensaries shall be located a minimum distance of 500' from other cannabis dispensaries. Distances shall be measured from parcel line to parcel line and apply to ground floor dispensary businesses only.

2. Glazing

Glazed area requirements shall apply to that area of the ground floor building façade facing a public street, up to the finished ceiling height of the ground floor building façade. This section does not apply to parcels with a Design Excellence Overlay.

- a. Incorporate glazing including; windows, doors and other transparencies to encompass at least 30% of the ground floor building façade.
- b. Window and door glass meeting the following transparency standards counts as glazed area :
 - i. Visible light transmittance of 60% or more.
 - ii. External reflectance of 20% or less.
- c. Display windows that do not provide views into the interior of the building may be counted towards satisfying up to 50% of the minimum glazed area requirements, provided that they are internally illuminated and are at least two feet in depth.
- d. Security gates may obstruct a maximum of 25% of window area for any individual window counting toward glazed area.
- e. Darkly tinted, mirrored or highly reflective glazing or doors with less than 50% glass may not be counted toward minimum glazed area requirements.
- f. Interior walls and other interior visual obstructions are prohibited within six feet of any facade area counting toward glazed area. This distance is measured perpendicularly from the exterior face of the glazed area.

g. In the event that an existing structure does not meet the 30% glazing requirements, any existing glazing must be maintained.

h. In the event that these minimum glazed area requirements conflict with city building (energy) code requirements, the building (energy) code governs.

3. Exemptions

Ordinary maintenance and repair of existing structures shall be exempt from the requirements of this section. Ordinary maintenance does not include the replacement, modification, or addition of glazing.

Explanation:

Existing medical cannabis businesses have attempted to comply with State regulations prohibiting the visibility of product by covering the business windows, most commonly with tinting. This action has effect on the surrounding business district by creating “dead” zones for pedestrian interaction. The intent of this section is to have businesses comply with the State regulations by using different methods than window coverings/tinting; thereby promoting active building frontages, creating connection between public and private space, and implementing crime prevention through environmental design best practices.

Additionally, these regulations should allow a structure to go through a change of use and continue to use the existing glazing without being required to add glazing or increase the transparency of existing glazing. Some methods for obscuring products may not be easily reversed. For example, if the existing glazing was tinted, the new business will not be required to remove the existing tinting, but could not decrease the opacity further.

20.45 – Accessory Uses and Structures

20.45.050 – Home Occupations

E. Standards

11. The following uses are expressly prohibited as home occupations :

- f. Restaurants;
- g. Funeral or interment services; ~~and~~
- h. Animal boarding businesses; and
- i. Commercial cannabis cultivation or manufacturing.

Explanation:

The intent of prohibiting cannabis cultivation and manufacturing as home occupation businesses is to ensure that impacts of cannabis businesses in residential zoning districts will not adversely affect the character and livability of the surrounding residential neighborhood. The regulations are also intended to ensure that the home occupation remains subordinate to the primary residential use, and that the residential viability of the dwelling is maintained.

The prohibition would apply only to new licenses for commercial cultivation and manufacturing businesses. Small medical cannabis cultivation and manufacturing home occupations have been permitted in the past. As long as they do not violate the provisions of the home occupation standards in the zoning code they will be considered legal non-conforming and allowed to continue operating until the use is abandoned.

20.100 – Terminology

20.100.010 – General Terms

Cannabis

A term used in this zoning code replacing the term “marijuana” used in state statutes and defined by the State of Montana (MCA §16-12-102). The term does not include hemp as defined in state law (MCA § 16-12-102).

Cannabis, Canopy

The total amount of square footage dedicated to live plant production at a registered premise consisting of the area of the floor, platform, or means of support or suspension of the plant.

Cannabis, Cultivation

The growing, harvesting, and curing of cannabis.

Cannabis, Dispensary

A retail facility where cannabis, and cannabis products are sold.

Cannabis, Manufacturing

The converting or compounding of cannabis into cannabis products, cannabis concentrates, or cannabis extracts.

Cannabis, Products

Products containing THC, derived from cannabis, for consumption. The term does not include hemp as defined in State law (MCA § 16-12-102).

Cannabis, recreational

A term used in this zoning code replacing the term “adult-use” used in state statutes and defined by the State of Montana (MCA §16-12-102).

Cannabis, Tier

The canopy square footage allotted by the State of Montana based on state guidelines found in MCA § 50-46-305.

Explanation:

The inclusion of cannabis uses in the zoning code requires the addition of new definitions pertaining to the industry.

20.105 – Use Classifications

20.105.040 – Commercial Use Group

W. —Retail Sales

Businesses involved in the sale, lease or rent of new or used products, merchandise to consumers. Typical uses include drug stores, grocery stores, department stores, apparel stores, and cannabis dispensaries.

Explanation:

Currently, dispensaries are treated as general retail and staff is recommending the inclusion of this business under the commercial use group as clarifying language allowing them to continue in these areas.

20.105.050 – Industrial Use Group

D. Manufacturing, Production and Industrial Services

1. Artisan

On-site production of goods by hand manufacturing, involving the use of hand tools and small-scale, light mechanical equipment in a completely enclosed building with no outdoor operations or storage, and occupying no more than 3,500 square feet of gross floor area . Typical uses include woodworking and cabinet shops, cannabis cultivation (With a canopy area up to Tier 1, MCA § 50-46-305), ceramic studios, jewelry manufacturing, food manufacturing, and similar types of arts and crafts or very small-scale manufacturing uses that have no negative external impacts on surrounding properties.

2. Limited

Manufacturing of finished parts or products, primarily from previously prepared materials. Typical uses include: catering establishments, printing and related support activities; machinery manufacturing; food manufacturing; computer and electronic product manufacturing/assembly; electrical equipment, appliance, component manufacturing/assembly; furniture and related product manufacturing/assembly; manufacturing of cannabis products that do not utilize flammable solvents and other manufacturing and production establishments that typically have very few, if any, negative external impacts on surrounding properties. Also includes cannabis cultivation (With a canopy area up to Tier 2, MCA § 50-46-305) and "artisan manufacturing/production" type uses that do not comply with the enclosed building, floor

area and/or outside operations/storage criteria that apply to artisan manufacturing/production uses.

Commentary: Businesses with approved State Cannabis licenses will be allowed to split grow areas between multiple locations as long as the combined canopy area square footage of all locations does not exceed the maximum canopy area permitted in the applicable state licensing tier. Locally, the canopy square footage can be distributed on the ground to any number of parcels so long as the canopy area on a single parcel does not exceed the square footage maximum allowed by the zoning district, and does not exceed the State license requirements.

3. General

- a. Manufacturing of finished or unfinished products, primarily from extracted or raw materials, or recycled or secondary materials, or bulk storage and handling of such products and materials. Typical uses include: textile mills; textile product mills; apparel manufacturing; leather and allied product manufacturing; wood product manufacturing; paper manufacturing; chemical manufacturing; plastics and rubber products manufacturing; nonmetallic mineral product manufacturing; transportation equipment manufacturing; primary metal manufacturing; ~~and~~ fabricated metal product manufacturing; and manufacturing of cannabis products. Also includes cannabis cultivation, medical, scientific or technology-related research establishments that produce odors, dust, noise, vibration or other external impacts that are detectable beyond the property lines of the subject property.

Explanation:

Cannabis cultivation and manufacturing are proposed to be manufacturing uses, scale based upon square footage. Medical cultivation and manufacturing have historically been called manufacturing uses based on the perceived impacts of the business on adjacent property. While the implementation of cultivation and manufacturing as a manufacturing use would not change, the definitions of the use will be clarified to include cultivation and manufacturing. The revisions would also take the scale of the operation into account when applying the appropriate manufacturing use classification type.

Codification instructions: Please remove all Explanation paragraphs prior to codification.

Effective date. The provisions of this ordinance shall be effective in 30 days after adoption.

Severability. If any selection, subsection, sentence, clause, phrase or word of this ordinance is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. The council hereby declares that it would have passed this ordinance and each section, subsection, sentence, clause, phrase and words thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, phrases or words have been declared invalid or unconstitutional, then the remaining ordinance provisions will be in full force and effect.
