"The very first thing i saw wrong is it says county funded. That's incorrect as the money is taxpayers money. Second there is over a 1000 jobs available in Missoula only employed people should be allowed in this camp and some portion of their paycheck will be used as rent. Any user of this facility may not panhandle. There must not be any drug use in the camp. Disorderly conduct will revoke use of these facilities. These are reasonable requests that will give users a sense of worth and hopefully propel them to be upstanding citizens. Rather than a drag on society. Hard Worker"
