“I need more information about what this development is going to look like. After working with the Council for a number of years on the development of this land (and we are now apparently looking at yet another version of what might come) this one seems vague. Where is the extended parkland we discussed? I appreciate all the images but it's still not clear how this is going to be developed. Also, and no disrespect to the architects, but if these are like the loft homes already built near West Broadway, they look like prison barracks and are uncomfortably close together. How about creating an extension of the existing neighborhood (Hellgate Meadows) instead of a mishmash of development? Thank you.”
