What is your interest in serving on this board, commission, or committee? I am very passionate about climate issues that we will be facing in the future, and want to help in any way I can now. This position seems like a great opportunity to not only have an impact on my community, but also educate myself. Additionally, I would love to observe first-hand how decisions regarding energy and climate are made, and how that will affect myself and my peers. Do you have special knowledge, interest or experience that would qualify you for a position on this board, commission, or committee? I am involved with the Democracy Project, which is a teenager led program that addresses issues in the community. This year we are focusing on climate change, specifically awareness and education through interactive activities.
