EXHIBIT A
Scope of Work & Compensation

SECTION 1 - Scope of Work

Partnership Health Center (PHC), with the assistance of the City of Missoula, is committed to achieving our mission of promoting optimal health and well-being for all, through comprehensive, patient focused, accessible and equitable care. PHC works to provide high quality primary care, remove barriers to access and address Social Determinants of Health (SDOH). We are proud to be a part of Missoula’s medical safety net and appreciate assistance from the City of Missoula. To that end, we respectfully request \$35,000 to help PHC address SDOH by supporting our Medical-Legal Partnership (MLP).

SDOH are the non-medical factors that influence health outcomes—the conditions in which people are born, grow, work, live and age. These factors--access to stable housing, economic and personal stability, and education—play an outsized role in determining a person’s health. The MLP works to positively impact community members’ health outcomes by integrating legal expertise into the medical care team. This enables PHC, through the MLP, to address health harming legal needs of our patients, and educate health care staff about identifying health harming legal needs. Health harming legal needs are social problems that affect a person’s health and have a potential solution in the legal system, such as illegal evictions, appealing denials of benefits, guardianship and child support. The total cost of this program is approximately \$86,000 annually and this Community Based Organization (CBO) funding request of \$35,000 will support a portion of the MLP program coordinator’s salary and benefits. The MLP coordinator oversees all aspects of the program. The legal system can be unnecessarily confusing and intimidating. The MLP works with patients to help them navigate the system through education and advocacy, and can work with all members of the community, regardless of their patient status at PHC.

In FY2023, the MLP received 155 referrals during 9 months of operation and we expect that number to increase as need grows and as we refine our processes to more efficiently address health harming legal needs. In addition, our patient numbers are increasing as Missoula residents continue to face rising inflation and high housing prices. PHC is committed to serving our most vulnerable residents with innovative programing like our MLP.
