Background and Alternatives Explored:

In conjunction with the larger City-wide code reform effort, Public Works and Mobility (PWM) staff are seeking to amend multiple sections of code to better bring them into alignment with our current practices. The majority of these PWM changes are simply "housekeeping" modifications necessary because of the CPDI/PWM reorganization or updates to the City's Public Works Manual and Fee Schedules. Other changes related to utility billing, utility loan programs, private streets, snow removal, cemetery revenue, metering at time of sale, and late-comers agreements reflect recent decisions by the PWM Department and will help to codify and clarify these decisions moving forward.
