

12.60.050.C

8. *Towing Vehicles; Costs.* In the event a Vehicle camp structure belonging to an Unsheltered Individual is towed and/or impounded by the city, no fees will be associated with the towing or impoundment; however any costs incurred by the City to cleanup public or private property surrounding the towed vehicular camp structure, due to accumulation of garbage and refuse around the vehicle, must be paid to the City before the vehicle is released. In the event the city tows or causes to be towed the same vehicular camp structure more than two (2) times due to violations of this Chapter, costs of towing and impoundment may be assessed. In situations where an Unsheltered Individual has an expired vehicle camping permit and is subject to being towed, but apart from the expired permit is otherwise in compliance with the applicable rules, the City shall have the vehicle towed to a location that would allow the Unsheltered Individual to obtain a new camping permit rather than having it towed to an impoundment lot.
