Hello,

Thank you for the opportunity to review the project,

Since the project will only generate around 166 trips a day, and if the City of Missoula does not require a traffic impact study, no more comments from MDT at this moment.

It is recommended that the developers consider City's guidelines in urban areas to make the area livable.

This project does not have a major effect, by itself, on MDT's highways.

Best,

Aldo Videa, P.E.
