---

You don't often get email from [dittig5@comcast.net](mailto:dittig5@comcast.net). [Learn why this is important](#)

I am writing with deep concern regarding the rezoning of the SE River Road area to “industrial status”. I reside just off S Catlin Street along the wonderful Milwaukee Trail very intentionally. This location was chosen to reside due to its walkability, bike-friendly and diverse income housing.

The thought of this area changing to a more industry friendly zone will disrupt many lives as I live amongst families with young children, witness handicapped folks and athletes all walking and riding whether it be on Catlin itself or the Trail.

Larger vehicular uptick traffic and development would forever change the dynamic of this diverse area. Dwelling in harmony and yet being diverse is the one of the perks Missoula has traditionally offered all people. The rezoning of the SE River District to industrial would I deduce whether swiftly or over a decade lead to the demise of a diverse walking, biking and most significantly residing population.

I vehemently oppose such a rezoning move and ask all in authority to disapprove this proposal.

Barbara Dittig
