Missoula City Council,

I grew up in Missoula and went to school here. I have just become aware of the new proposed UDC. It seems crazy to me that we are eliminating all overlays throughout Missoula. Overlays that protect our neighborhoods character and what makes Missoula, Missoula.

While eliminating all overlays the only district wide overlay we are keeping is the Fort Missoula Historic Resource overlay. This is not fair for private land owners who will need to follow these strict guidelines while government properties are exempt. The new UDC is being created to make zoning more clear for all owners. Why keep this overlay and throw away the other ones.

I am asking that you remove the Fort Missoula Historic Resource Overlay or Limit the Fort Missoula Historic Overlay to owners who elect to participate or properties with individually listed historic buildings. As well as Replace CD-1 with CD-2 citywide, which was passed unanimously by the planning board.
