Subject: Grant Creek Neighborhood - 2920 Expo Parkway Rezone Application

Hello

My name is Jason Graham, I live at 6319 GlenEagle Way here in missoula.

I looked at the info on file for the project proposed at 2920 Expo Pkway and am in strong opposition to the rezoning of the area to a high density dwelling plan.

The proposal is similar to what was presented in the Rattlesnake area, and that rezoning was denied, I ask for the same outcome on this project.

I am not opposed to a development that will allow new neighbors to have the pride of ownership of buying/owning condos or homes on the neighborhood . exactly what the current zoning allows for, but can not support a high density plan at this location.

Please keep me apprised to any updates on this proposal
Thank you!

Jason
