

Hello, I support the existing zoning for the above-mentioned parcel. I would like to see additional opportunities for home ownership in Missoula. The proposed zoning change would allow for a very large number of units that, in my opinion would benefit the interests of developers and landowners, rather than residents.

I don't believe adequate traffic studies have been carried out that would evaluate the possible impact of hundreds more vehicles at full build-out if the rezone is approved.

Thank you,

Adam Johnson
Missoula, MT
