**Subject:** RE: Trinity Mullan Service

Good morning Drue,

CenturyLink does have both copper and fiber facilities available in both of the areas of Cooley and Burns as well as your project on Mullan rd available to service these complexes. Copper services will be available for any elevator and alarm lines deemed necessary, whereas fiber services are available for residential phone and internet services with an approved marketing agreement.

Please let me know if any other information is needed on this matter.

**Subject:** Trinity Mullan Service

Hi John – Thanks again for meeting on site with us today.

This is just a reminder to send us an email with written confirmation that CenturyLink has the ability to provide services to the Trinity Mullan site (You can just simply respond to this one). We will work in getting the Developer in contact with Duane to work through the contractual elements of the process. But for now, this written confirmation will help us as we work towards the subdivision approval.

Thanks,  
Drue Seamans
