+1 301 715 8592 US (Germantown)
Meeting ID: 943 8908 4290

Join us for a neighborhood meeting to discuss plans for a new neighborhood at the property located at the northern terminus of George Elmer Drive. The proposed development is to the north of Flynn Ranch and 44 Ranch, to the east and west of the future extension of George Elmer Drive. Woith Engineering, Inc. will present the plans for the neighborhood and host a question and answer session.

Due to the ongoing precautions related to the COVID-19 pandemic, the neighborhood meeting will be held virtually.
Please contact Woith Engineering, Inc. for questions or accommodations.

RE: Mcnett Flats Subdivision – Captain John Mullan Neighborhood Council Meeting

Dear Recipient,

You are receiving this letter as a notice and invitation to attend the upcoming Captain John Mullan Neighborhood Council meeting where the proposed Mcnett Flats Subdivision, to be located at the terminus of George Elmer Drive, will be presented, and discussed. The proposed Mcnett Flats Subdivision is a 7-lot major subdivision. The proposal includes annexation of the property into the City of Missoula and the Captain John Mullan Neighborhood. Due to the ongoing precautions related to COVID-19, the meeting will be held virtually, as detailed below:

When: Monday, June 15, 2020
6:00 PM MDT
Where: Zoom Virtual Meeting
(Access Details Enclosed)

Enclosed with this invitation are the project summary and a copy of the preliminary plat of the proposed subdivision as submitted to the City of Missoula. We look forward to your attendance of the above neighborhood council meeting. In addition, written correspondence can be received at our address, above. The subdivision application will include any written response from the Captain John Mullan neighborhood organization and any written comments from individuals, the neighborhood group, and minutes from the above meeting detailing comments and suggestions.

Sincerely,

WOITH ENGINEERING, INC.

MCNETT FLATS SUBDIVISION

A 7-LOT MAJOR SUBDIVISION IN THE CAPTAIN JOHN
MULLAN NEIGHBORHOOD

1

Subdivision Location

20.21 acres at the northern terminus of George Elmer Drive.

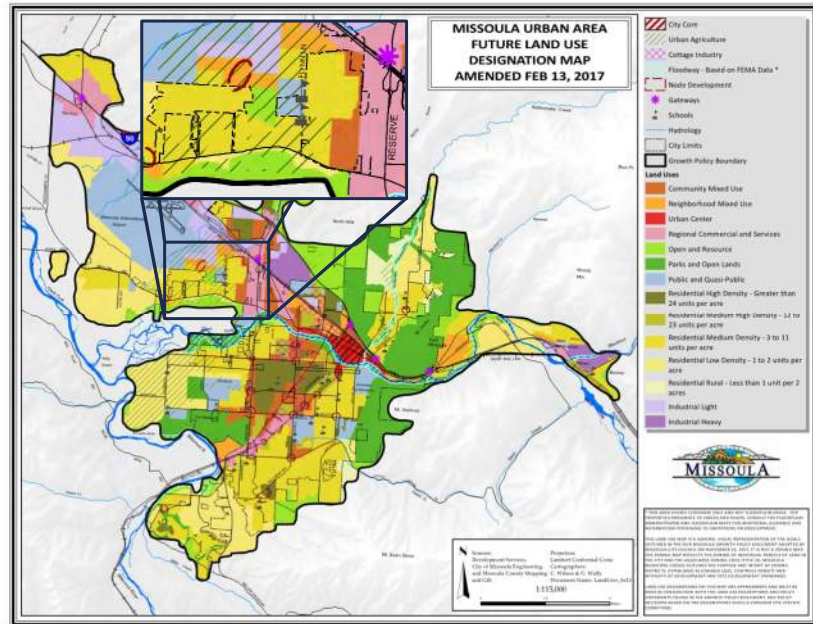

2

City of Missoula Growth Policy 2035

Neighborhood Mixed-Use

"This area is intended to distinguish, create, maintain and enhance areas that already provide primarily local service within a neighborhood. These areas support and help give identity to individual or small groupings of neighborhoods by providing a visible and distinctive focal point. Commercial uses that may be a part of the neighborhood mixed-use include retail, offices, entertainment, professional services, eating and drinking, and shopfront retail that serve a market at a small neighborhood scale. Medium-high density residential development is also encouraged in this area."

MCNETT FLATS SUBDIVISION

QUESTION AND ANSWER SESSION

JUNE 15, 2020

Date: June 15, 2020

Time: 6:00 PM

The Captain John Mullan Neighborhood Meeting via Zoom

Attendees: Woith Engineering, Inc.: Matt Hammerstein, Kody Swartz, Spencer Woith, and Tony Hilliard

CJM Leadership Team: Jane Kelly, Kathie Snodgrass, Janie Cook, Lianna Walker, Antony Jo, Bob Main, and Marley Merchen

Meeting Notes:

1. Meeting Opens at 6:05 PM
2. Introductions of Attendees
3. Unanimous Approval of May 6, 2020 Leadership Team Meeting Minutes
4. Mcnett Flats Subdivision Presentation
5. Matt Hammerstein of Woith Engineering Presents Project Slideshow
6. Question and Answer Session Begins:

Q: Are you planning on developing the commercial lots or selling them to someone else?

Kody: The owner likely plans to develop the lots himself. But we are still very preliminary on the site plans on each of the individual lots at this time. The developer isn't certain of his development plans for each of the lots and it is dependent on market conditions.

Q: What kind of development can be expected on each of these lots?

Kody: There will be a likely be a mixture of high-density residential with some commercial that meets the proposed zoning of B2-2 per the City of Missoula zoning regulations and in accordance with the growth policy.

Q: Is the figure included on the Traffic Impact Study of 3,590 trips just from the proposed development?

Matt: Correct, 3,590 trips is considered the worst-case scenario based on the maximum density that B2-2 zoning permits.

Q: Will those 3,590 trips be from apartments?

Matt: That figure is based on maximum units allowed from B2-2 zoning.

Q: How much green space is the city going to ask for east of George Elmer?

Kody: We are still working with parks and recreation to determine exact amount. B2-2 zoning will apply and we are assuming that it will be a total percentage of the gross lot area as the zoning requires.

Q: Where will England Boulevard enter the development?

Matt: England Boulevard will not enter the proposed development – it will be in a future development to the north.

Q: Is 3,590 trips a maximum based on a number of apartment units?

Matt: It will depend on the final construction plans for each lot, but zoning permits up to approximately 860 units. This number is not anticipated at this time.

Q: Will green spaces be provided within the subdivision?

Matt: Yes.

Q: How much consideration will there be to impacts to the existing transportation? Concerned about traffic safety on Mullan and streets leading to the development.

Kody: The Mullan build grant is prioritizing those concerns now.

Kody: Utilities and roads will be constructed first and then building on individual lots.

Q: What is the approximate date of first occupancy?

Matt: Not certain at this time, but construction is anticipated to commence as early as spring or summer of 2021.

Q: Will annexation include final zoning?

Matt: Subdivision will receive zoning upon annexation.

Q: Will there be future times to comment on this development?

Matt: Yes, there will be future City Council meetings to comment at.

Q: Do we have an idea of what business will be incorporated and where?

Matt: Not at this time.

Q: Will street parking be provided on George Elmer?

Matt: Yes, a continuation of what presently exists on George Elmer.

Q: Will stop signs be provided at the George Elmer intersection?

Matt: Yes, but we are working with City Engineering and an independent traffic engineer to get a better understanding of what control device or intersection configuration needs to be implemented.

Subject: McNett Flats

Hi, Kody.

I seem to have misplaced the plat maps you sent to the Captain John Mullan LT when you originally contacted us about presenting the project to us. Is there any chance you would be able to resend either that or else the presentation from tonight's meeting to me? When discussing this with people in the area who are bound to be asking questions, it would be really helpful if I had some pictures of the roads and such.

Thanks!

Jolyn and Mark

On Fri, Jun 26, 2020 at 12:02 PM Matt Hammerstein <matt@woitheng.com> wrote:

Jolyn and Mark,

Thank you for your feedback and we appreciate your response. It will be included in the submitted documentation for the subdivision application. We understand that the Zoom meeting format is not the ideal way to conduct these meetings, but unfortunately the city is not allowing in-person meetings at this time. We certainly are hopeful that further public hearings will be held in-person.

Note that although variances will be requested to reduce the width of the right-of-way within the subdivision, the widths of physical travel lanes, parking lanes, and bike lanes will not be reduced from current City standards. This means that the surface of the new portion of Old Ranch Road will be approximately 7' wider than the existing section to the south in Flynn Ranch, and the widths of George Elmer will match the existing section.

Construction of infrastructure for this subdivision cannot and will not commence until approval of annexation and subdivision by the City of Missoula and sanitation through the Montana Department of Environmental Quality. We estimate these approvals will take about a year. You may see periodic excavations for geotechnical investigations during the design phase.

We hope this helps to address your concerns and again, thank you for your feedback. We are more than happy to investigate any additional concerns as we proceed through this process.

Subject: McNett Flats Subdivision June 15th presentation response

Hi Matt and Kody,

We understand from the paperwork we received beforehand, this meeting was to discuss requested variances to reduce the right away of streets. We strongly oppose the approval of these variances. The Flynn Ranch subdivision, where we live, had similar variances approved and it's a problem.

We've watched the garbage trucks and other delivery vehicles have to back up and go around another way because they couldn't get through the street. Thank goodness they weren't emergency vehicles. There are signs for people not to park on the street, but it happens and there are times when there is no alternative but to park in the street.

The developer of Mcnett Flats has a solid reputation for greed and building substandard buildings. Add that to the clay soil and it's not the best scenario.

Online Zoom meetings are not the way to get solid feedback from the neighborhood.

Also, You mention that this project is very early in the process. It's interesting that Tollefson has already brought in a construction office and other equipment.

Please, let's do this one right.

Jolyn Ortega and Mark Wiggins

Ryan,

Yes, the proposal is for B2-2 zoning to meet the City Growth Policy and allow a mixture of commercial and medium- to high-density residential uses.

I'm not aware of a firm timeframe for the full extension of George Elmer to Broadway – that will happen under the BUILD Grant which can be found here: <https://www.missoulacounty.us/government/community-development/community-planning-services/planning-projects/build-grant>

Thanks again,

Thank you for sending those Matt. I don't know why allowing people to see your presentation during the meetings is not allowed. That sure seems silly. Anyhow, It's nice to see what you were talking about on the phone last night. I wasn't able to picture the exact location of your proposal without it but it makes sense to me now after being able to see it.

2 questions...

If I'm reading this right, this proposal is for the apartment/commercial mix buildings in McNett Flats?

Is there an estimated time when you expect George Elmer to be put through to Broadway/Airportway side?

Thanks,
Ryan

Subject: Re: Mcnett Flats Subdivision- Neighborhood Council Meeting Coordination

Dear Tony,

The Neighborhood would like to have a meeting. We would do this via Zoom in the evening. I believe the LT is pretty much open. What are some dates that would work for you?

Thank you,

Jane Kelly

Subject: Mcnett Flats Subdivision- Neighborhood Council Meeting Coordination

Good morning Jane,

We are currently going through the subdivision process representing our client Tollefson Properties, LLC for a piece of property located at the terminus of George Elmer Dive (Please see the attached Vicinity Map) and would like to work with you to get on the agenda for a future Captain John Mullan Neighborhood Council meeting. The proposed Mcnett Flats development is a 7-lot major subdivision of which we have submitted a preliminary plat and had our Pre Application Meeting with the City of Missoula. I have also attached a copy of our preliminary plat although it may be subject to some minor changes and revision at this point. If you could let us know what your timeline looks like for upcoming Neighborhood Council meetings so that we can work on scheduling a date for the meeting, and accommodate the meeting requirements specified in Section 4-010.2 of the regulations it would be very much appreciated. If you have any questions or need any further information please don't hesitate to reach out.

Thank you for your help,

Tony Hilliard, EI

Engineer I
