What is your interest in serving on this board, commission or committee? This commission represents an opportunity to be involved in our community's civic life. I'm particularly interested in this commission because of the intersection between planning, development and parking, which is closely connected with much of the work that I do professionally.			
Do you have special knowledge, interest or experience that would qualify you for a position on this board, commission or committee? I am a professional planner and engineer and am involved in transportation planning projects that invariably address parking. I am a resident of the University area, part of the Parking Commission's jurisdiction. I am committed to being an active, engaged member of my community.
