What is your interest in serving on this board, commission, or committee?

I am moved by our community representation of artists in so many great areas. The more art in the eyes of the public, the better.

Do you have any special knowledge, interest, or experience that would qualify you for a position on this board, commission, or committee?

I have been working with artists of all sorts in this community for nearly 30 years, as well as teaching and mentoring contemporary artists and designers both in and out of the university setting. I'm interested in exploring new forms of modern and experimental/experiential art and how they can interface with our community.
