Hi Kaitlin,

Attached is a list of thoughts and concerns I have regarding the project on the corner of 6th and Hazel (Hogan Senior Living).

I read through what I could find on the internet but the information was not specific to my questions/concerns.

Please take the time to review what I have written. As I stated in the list most thoughts have come from years living in condominiums, dorms, and single family homes.

This project will include a diverse group of individuals whose age is the common denominator but with "individuals" being the operative word.

Thank you for your time.
